To Learn To Serve

Crane's Role In The War

World War II is the greatest drama in all mankind's history. Upon its outcome rests our future, our homes, our liberty, and our very lives. In this drama there are no spectators. Every one must play his part.

In Crane our sole concern, our every action and thought shall be directed to but one aim, preparing young America to defend America's freedom on the production and fighting lines. Skilled hands, clean minds and sturdy bodies are and will continue to emerge from Crane.

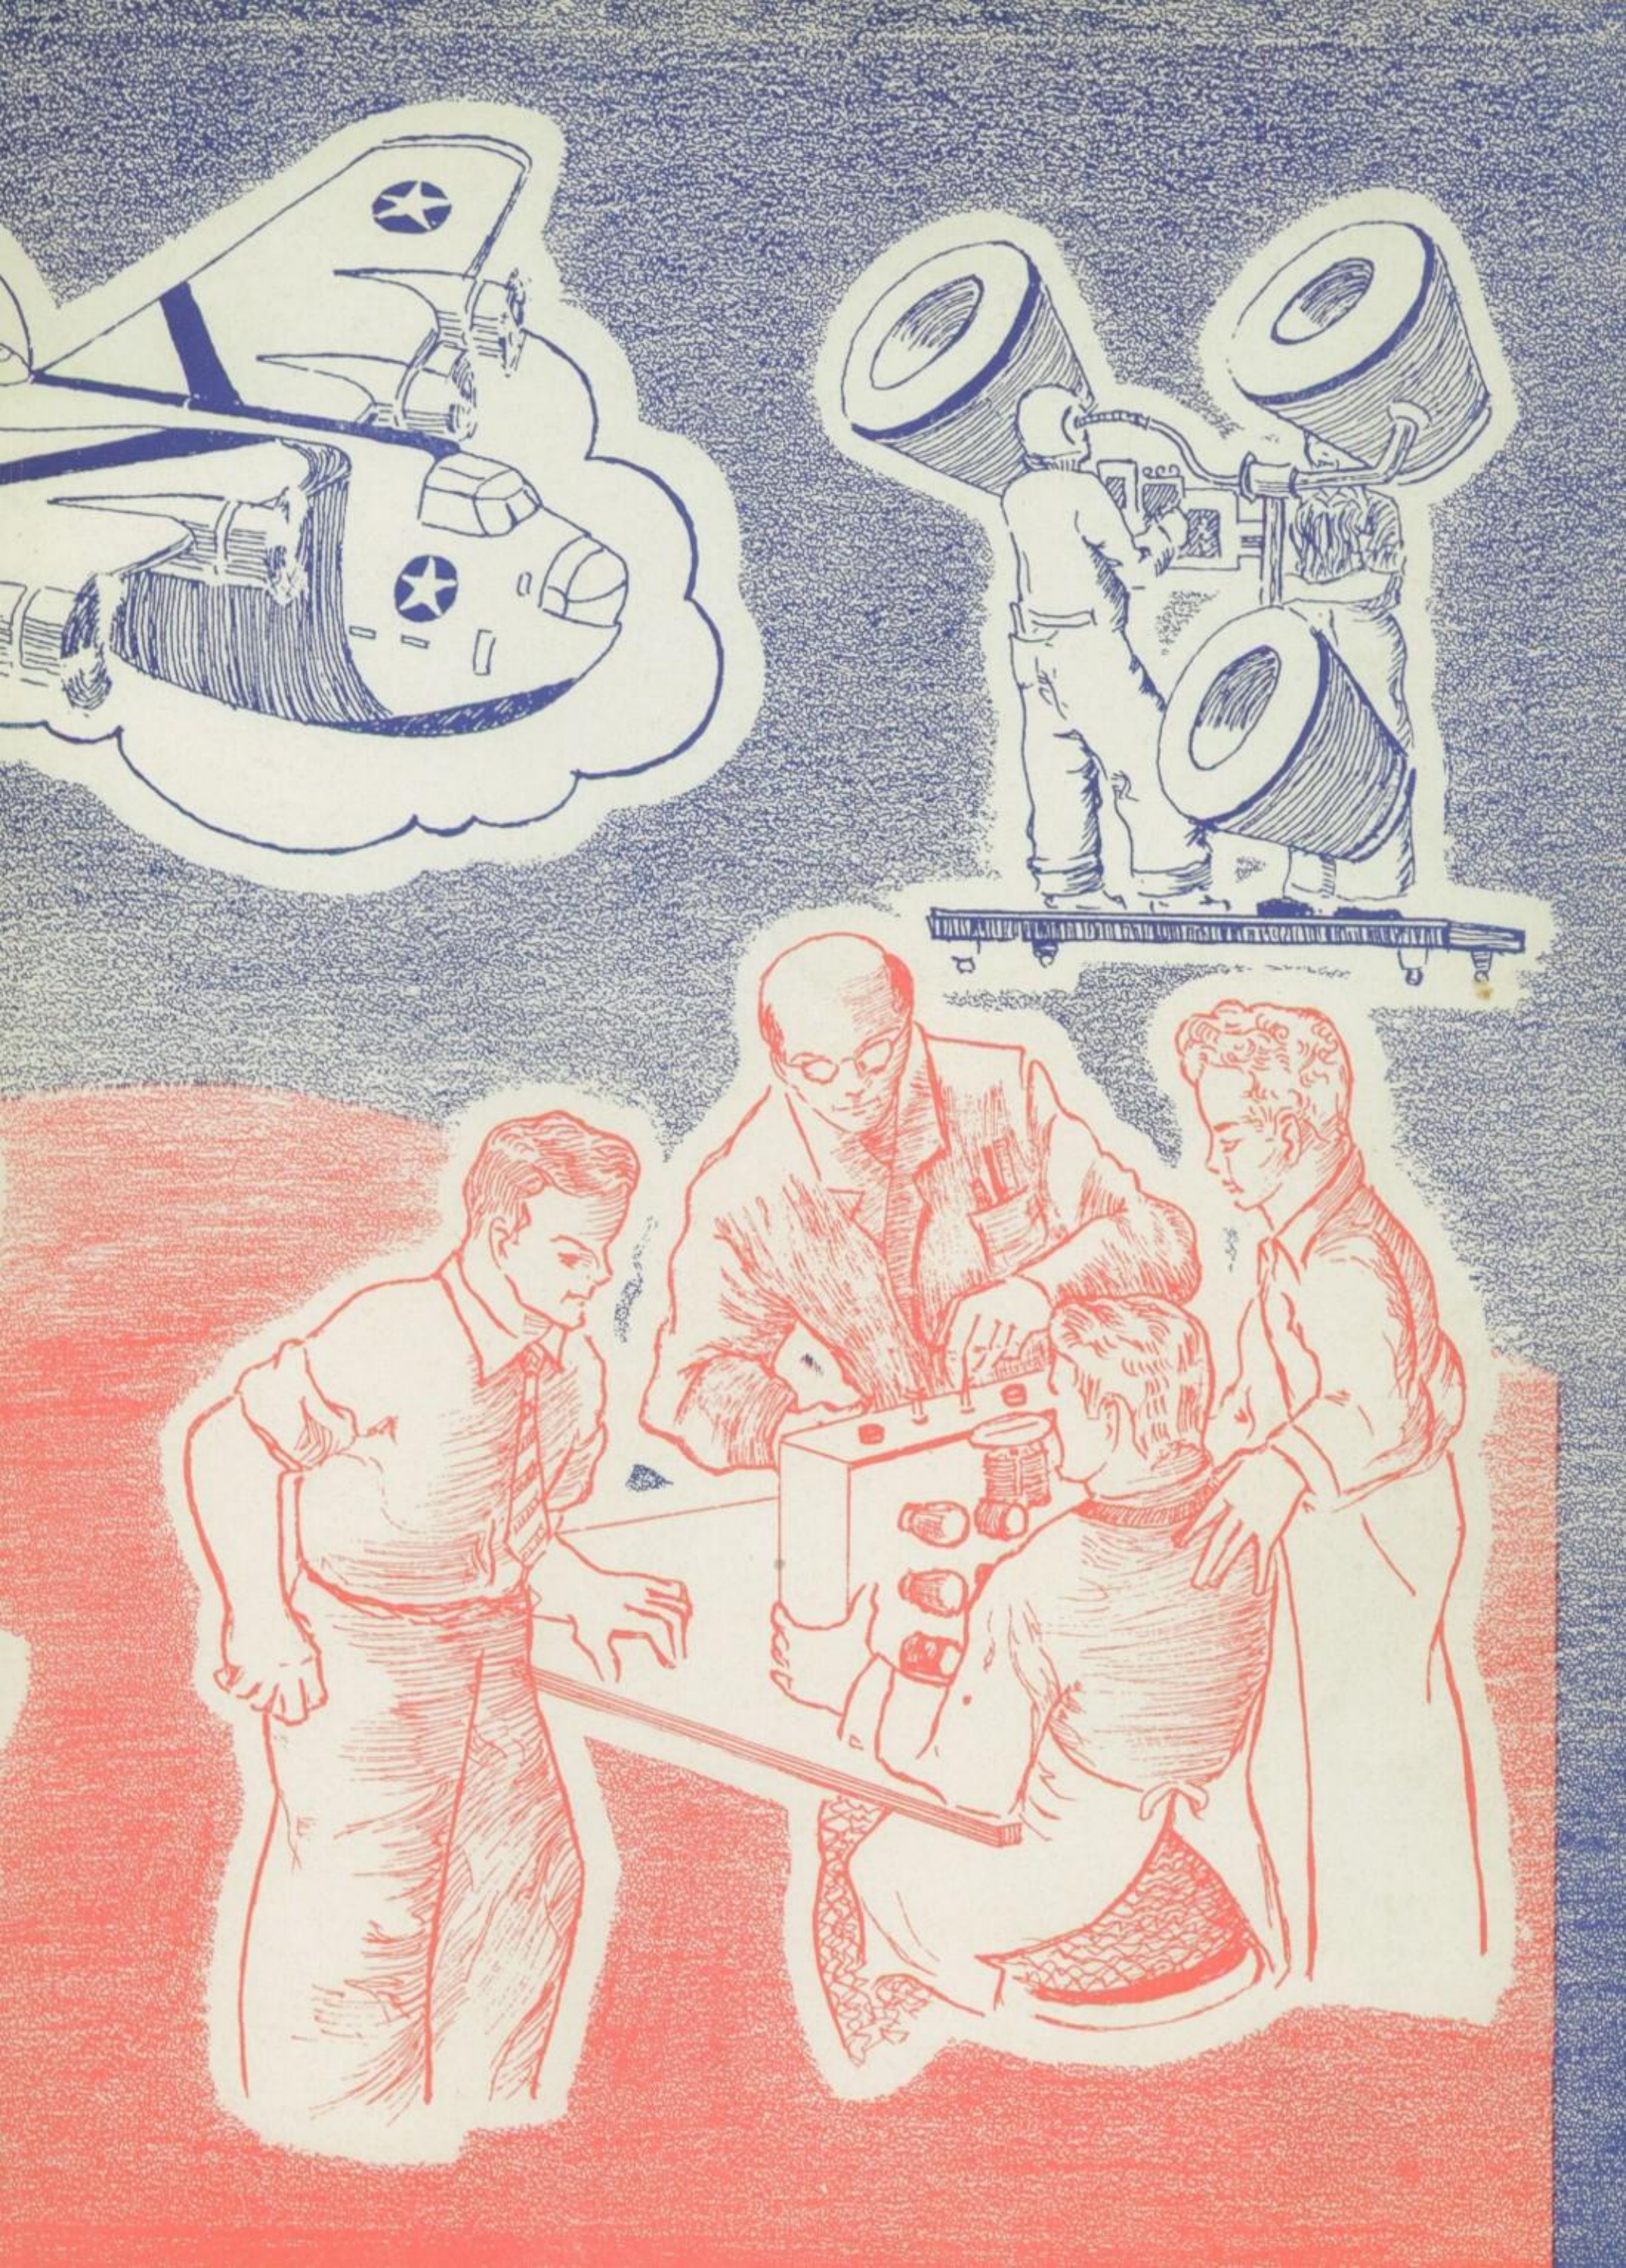
ADMINISTRATION

THEY LIGHT OUR WAY . . .

THEY STEER OUR COURSE



PRINCIPAL'S MESSAGE

Never before in the history of the world perhaps, have the schools been called upon to bear so heavy a responsibility in training young people to serve. It is a responsibility which the faculty at Crane has accepted wholeheartedly, with a deep-rooted conviction that it is also a high privilege—a privilege because of the wholehearted cooperation with which our boys have responded during the past year to all calls for service.

They have learned to serve in many ways. They have served the school in their Clean-up Campaign, in their clubs, and in their Student Council. They have served the community in the generosity they have shown in drives for such worthy charities as the Children's Aid Society and the Infantile Paralysis Foundation; in the assistance our seniors have given to local rationing boards and in their Victory Garden campaign throughout the neighborhood. More significant than any of these, however, has been their service to their nation in war-time.

First there was the Scrap Drive, when what seemed to be an impossible goal was not only reached but passed. Next came a War Stamp and Bond Drive in which sales mounted far beyond the most extravegent expectations of those whose affair it is to set quotas. These latter have learned to expect much at Crane and are now looking forward to a better than over-the-top performance in the current drive for the Red Cross. Our boys have served well, too, in the R.O.T.C. and in the newly established Naval Reserve Squadron.

It has been a good year—a creditable year to the graduation class whose leadership has been responsible for its success. It would be a remission, however, to forget those members who will not be with us on Commencement Night because of their entrance into a higher service—the actual fighting service of their country.

To the few who have left us to join the various branches of the army, navy, and marine forces, and to the many Crane alumni who are represnted both in blue and in gold in our service flag—from Captain Moran on down—the Crane boys who have done and are doing such a magnificent job of service, we dedicate our efforts and our yearbook.

Mathematics

● The land, sea and air forces need mathematically-trained men. With college sources almost exhausted, the government is calling on high school graduates to do what college men formally did. Determined not to fail in their effort to provide Crane's 3,580 math students with proper mathematical training, the school's twenty-four math instructors are teaching mathematics on a rigorous "pass or flunk" basis. No "half-way measures" are accepted.

All Craneites are required to take either two semesters of Elementary Alegebra and two semesters of Plane Geometry, or else a four semester course in Essential Mathematics. After learning these basic fundamentals, they may continue their math education by taking a third semester of Alegebra, a course in Solid Geometry, a semester of Trigonometry, and finally a College Survey course which introduces them to college mathematics.

PRE-FLIGHT

A special feature introduced into the mathematics curriculum this semester was the Pre-Flight course. This war course was designed to teach the principles of aero-dynamics, navigation and meteorology. In addition to these subjects, civilian rules and regulations are also taught. Approximately 130 students are enrolled. Miss Regina Devine who holds the distinction of being a civilian pilot and the proud possessor of a license, is the qualified instructor of this course.

English

● Johnny's work in English has taken on a new slant. Of course Johnny is still being trained in vocabulary, composition and literature but these English units have "gone to war."

The new course in English, as suggested by the United States Office of Education, aims to help Crane's 3,806 English students understand the war. Formerly, vocabulary drills used material from textbooks, but now the latest war terms and expressions form the groundwork of vocabulary drill. Oral and written composition has been converted from the meaningless work in books to topics dealing with the war and of current interest. The student's outside reading has also been switched to present day problems.

Six semesters of English are required of all students. One may also have as an elective choice an additional semester of English, Journalism, Public Speaking, or College English.

Physical and

● By continuing in their former manner, the Science Department is contributing its bit to the war effort. With every new weapon on the firing, production, and home front there stands an invisible army of men and women of science. The modern world is wholly dependent upon it.

At Crane, a complete four year science course which includes general science, biology, physics, and chemistry is offered. Graduation requirements call for a minimum of two science units. Most Craneites, in view of the excellent opportunities, follow the complete four year course.

Enrollment in each course numbers 1,319 in general science, 1,183 in biology, 812 in physics, and 297 in chemistry. Thirty instructors comprise the teaching staff.

In his initial year at Crane, general science introduces the student to all the sciences of modern life and lays the foundation for advanced courses.

Biology, which is reserved for second year students, involves the study of living organisms and the phenomena of life. Its field is the whole breadth of the organic world, and it seeks to define the boundaries that separate living from organic matter, to discover the principles that unify it, the processes by which living things have developed, and the nature of life itself.

The study of the every day physical and chemical occurrences that are so closely associated with our every day experiences, is taken up in physics and chemistry.

Foreign Languages

• Number one on our "must" list today is winning the war. The fact remains that the peace must follow—and with the peace, disarmament and reorganization at home and abroad.

Needless to say our relations abroad must be kept in the best order. Those who possess a knowledge of a foreign language will be pressed into all types of services.

With the other courses in Crane, the Foreign Language Department has re-shaped its schedule and is now "operating" on a war time basis. More has been crammed into the course, and, the once seemingly uninteresting languages, have taken on a new zest with a definite relation to the war. Latin, Spanish, French, German and Italian are offered. A total of 720 students are enrolled in the various language classes with seven instructors to guide them.

Those students who are enrolled in the course must complete two years of language before they receive credit. Advanced courses are offered to those who wish to continue or study another language.

Social Studies

• To understand the present situation, the American citizen must possess a knowledge of the functions and problems of his government. He must also be acquainted with American history so that he may know how present issues have evolved from the past.

In these critical times, as always before, the Social Science Department with its nine instructors, has provided Craneites with the background that is necessary to make them active citizens. By requiring each student to take a course in Civics and two semesters of U. S. History, every graduating Craneite is prepared to take his part in winning a lasting peace. For the scholars who wish to understand the problems of Europe, a course in Modern European History is offered. Craneites who are worrying about their future may take Careers, a vocational guidance course.

Altogether 1,415 boys are engaged in studying the Social Sciences.

RIGHT IN THE FUEHRER'S FACE!

IT CAN'T HAPPEN HERE

. . . *Crane's* TECHNICAL AND

TECHNICAL SHOPS

● Crane's shops are in step with the drums of war. Industry calls for trained hands, sturdy bodies and determined souls. The shops are answering this call and producing skilled workmen for the production effort. Today Joe Craneite works diligently at his lathe in machine shop, tomorrow may find him on the production line helping to assemble a tank, a plane or an ack-ack gun.

Thirty-four expertly trained mentors supervise 2,572 students in the Foundry, Patternmaking, Upholstering, Printing, Forge, Welding, Machine, Auto, Aeronautics, Radio and Electric shops.

Graduation requirements for the technical course, call for two semesters of Wood shop and one semester of Electric and Machine shop, and a choice of any other two shops.

VOCATIONAL SHOPS

● Today more than ever the Smith-Hughes Vocational students are finding their experience invaluable. Unlike the average Craneite who spends only eighty minutes in the shop, the Smith-Hughes trainee works two hours and thirty-five minutes in his chosen shop.

Formerly the purpose of the course was to provide a more practical education for students who could not attend college. Today the course aims to produce skilled hands for war production.

A total of 1,034 students guided by eight teachers are enlisted in the course and are training in Printing, Foundry, Electricity, Radio, Auto, Machine, Photography, Linotype, and Architecture.

After their enrollment in the course in third year, the only academic subjects allowed the Smith-Hughes students are Related History, Mathematics, Science, English and Drawing.

Mechanical Drawing

● Crane's mechanical and architectural courses are directly in line with the technical and war programs. Through this medium reasoning powers, neatness, and a conception of mechanics is acquired by the student.

In mechanical drawing, which is a required part of the curriculum, students are enrolled in the course for two and a half years. Two years of this time is taken up with mechanical drawing, and one semester with freehand drawing. Total enrollment in this course numbers 3,120 with guidance by twenty-two instructors.

The architectural course includes architectural and freehand drawing for three years. The course follows closely the Smith-Hughes pattern, that of spending a great deal of time at the subject itself with a minimum amount of academic training. Eighty minutes daily are spent in the drawing room with an additional forty minutes in the freehand class.

ART AND MUSIC DEPARTMENTS

Music and Art

● In the war effort, the fine arts have their place along with the sciences. Germany and the Axis countries have regimented their "culture." Where once stood art treasures, Fascist propaganda posters and decrees, today stand —a grim reminder of axis methods. It is therefore, vitally important that democratic America advance and keep alive its own way of life in the classics.

The music department, even though music is listed as a minor subject, plays a major role in Crane. All choral and musical groups have evolved from it. Five hundred students taught by three mentors are enrolled in the classics. Graduation from Crane requires all students to take at least one semester of band, orchestra, or singing.

Freehand and commercial art are offered in the arts. In the former, one semester is required. Embryo artists, numbering 161 are encouraged and instructed by Mr. Overholser and Mrs. Diaz, art teachers.

PHYSICAL EDUCATION DEPARTMENT

Not Pictured: Messrs. Trebbin, Malo, Robinson.

Physical Education

● "Men—tough and sturdy," orders Uncle Sam. Quick as a flash the High Schools respond with a rigorous program of Physical Education.

Crane's thirteen Physical Instructors won't let that bewhiskered gent down. No sir! It's all hard exercise from now on. In the gym and in the swimming pool "Commando" training is taking place. All along the line—the health, swimming, R.O.T.C. and gym classes are working to produce intelligent, rugged boys for a harder task ahead.

Every student at Crane is required to take eight semesters of health and gym, with R.O.T.C. and swimming as electives to be taken in place of gym, in order to graduate. Intramural and varsity sports furnish that necessary competitive spirit and stability that strengthen Craneites morally as well as physically.

Parent-Teachers' Association

P.T.A. OFFICERS

● Tightening the bond between the pupil and his teacher is Crane's Parent Teachers' Association; more commonly known as the P.T.A.

Of all its activities the P.T.A. places the most emphasis on promoting and maintaining child welfare in the home, community, and school. In the past, the P.T.A. has succeeded in supplying adequate care, clothing, and equipment, for needy students.

Parent Teachers' Association members are well-informed as to the problems of modern war, and frequently listen to lectures, faculty addresses, and student round table discussions.

Educational tours of interesting places in the city are further accomplishments of the organization.

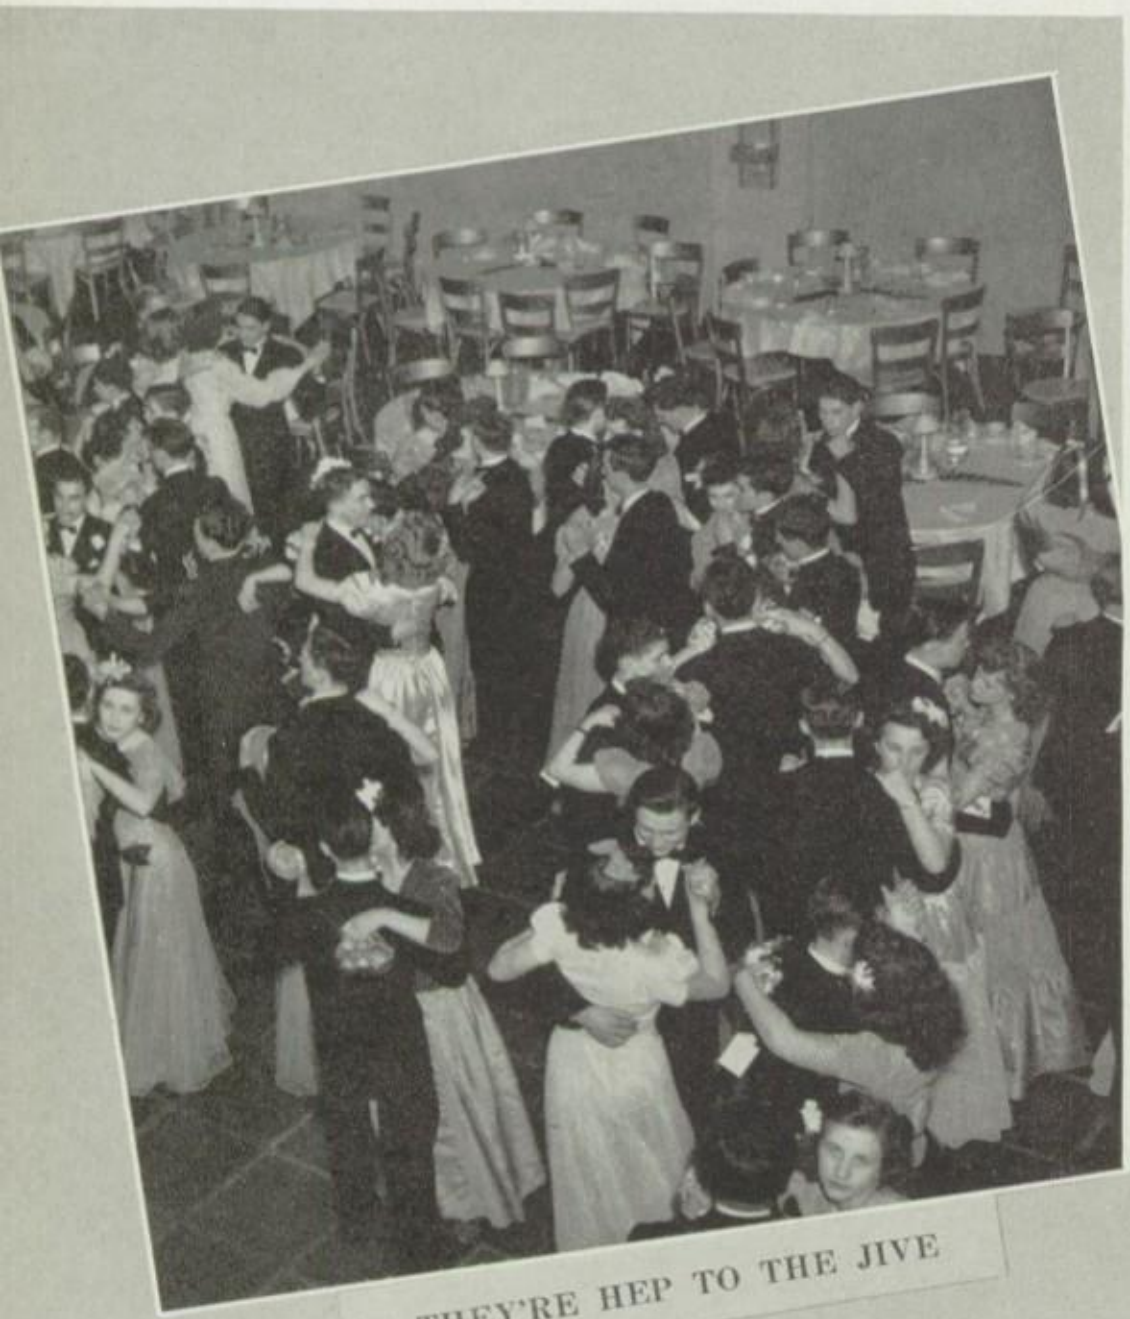
January Prom

...CRANE GOES FORMAL



THEY'RE HEP TO THE JIVE

• Massed for a final farewell were some odd 137 Craneites who proudly strutted to the enchanting music of Henry Brandon and his orchestra, at the 42½ Dinner Dance which was held at Chicago's famous Hotel Knickerbocker. The noted vocalist, Betty Watson, with her tantalizing voice thrilled Craneites and their partners throughout the evening.

The prom was rendered successfully only after many hours of preparation on the part of Mr. Cocayne, the class sponsor, and the combined efforts of the prom committee who organized and planned the entire affair.

Crane's Sons

They Fight That We Might Live

From the lush tropical jungles of Africa, to the ice—capped peaks of the polar regions, Craneites are in the vanguard of the battle for freedom. Staunch in their rockbound determination to see that right will prevail, they are striving onward toward victory—making sure that those principles which man has discovered and nurtured throughout the ages, shall again rise triumphant.

Let us honor then these youth and their valor. They, the fighters of today, are the leaders of tomorrow. Their motto, "We shall not fail," is now being proven on the far flung battlefields of today.

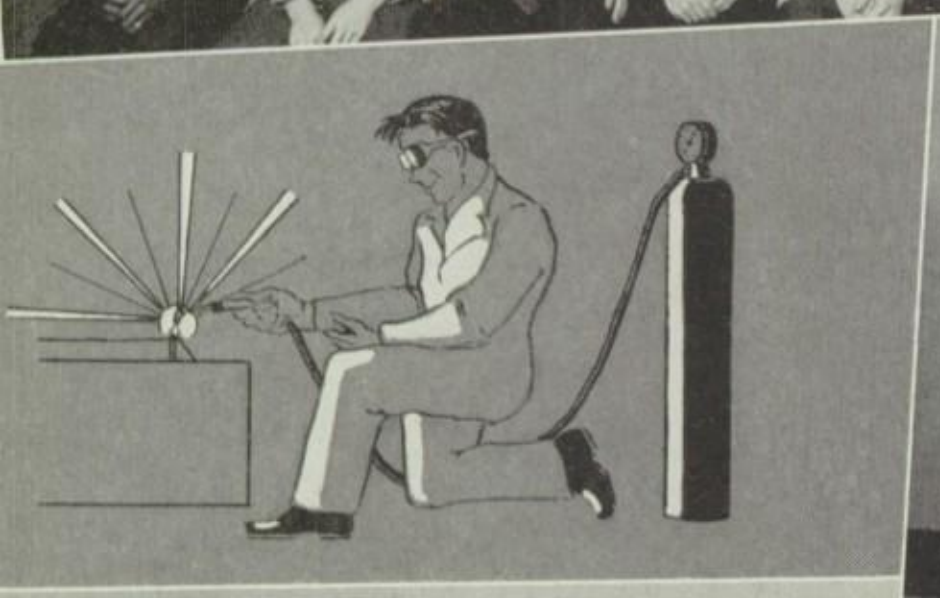
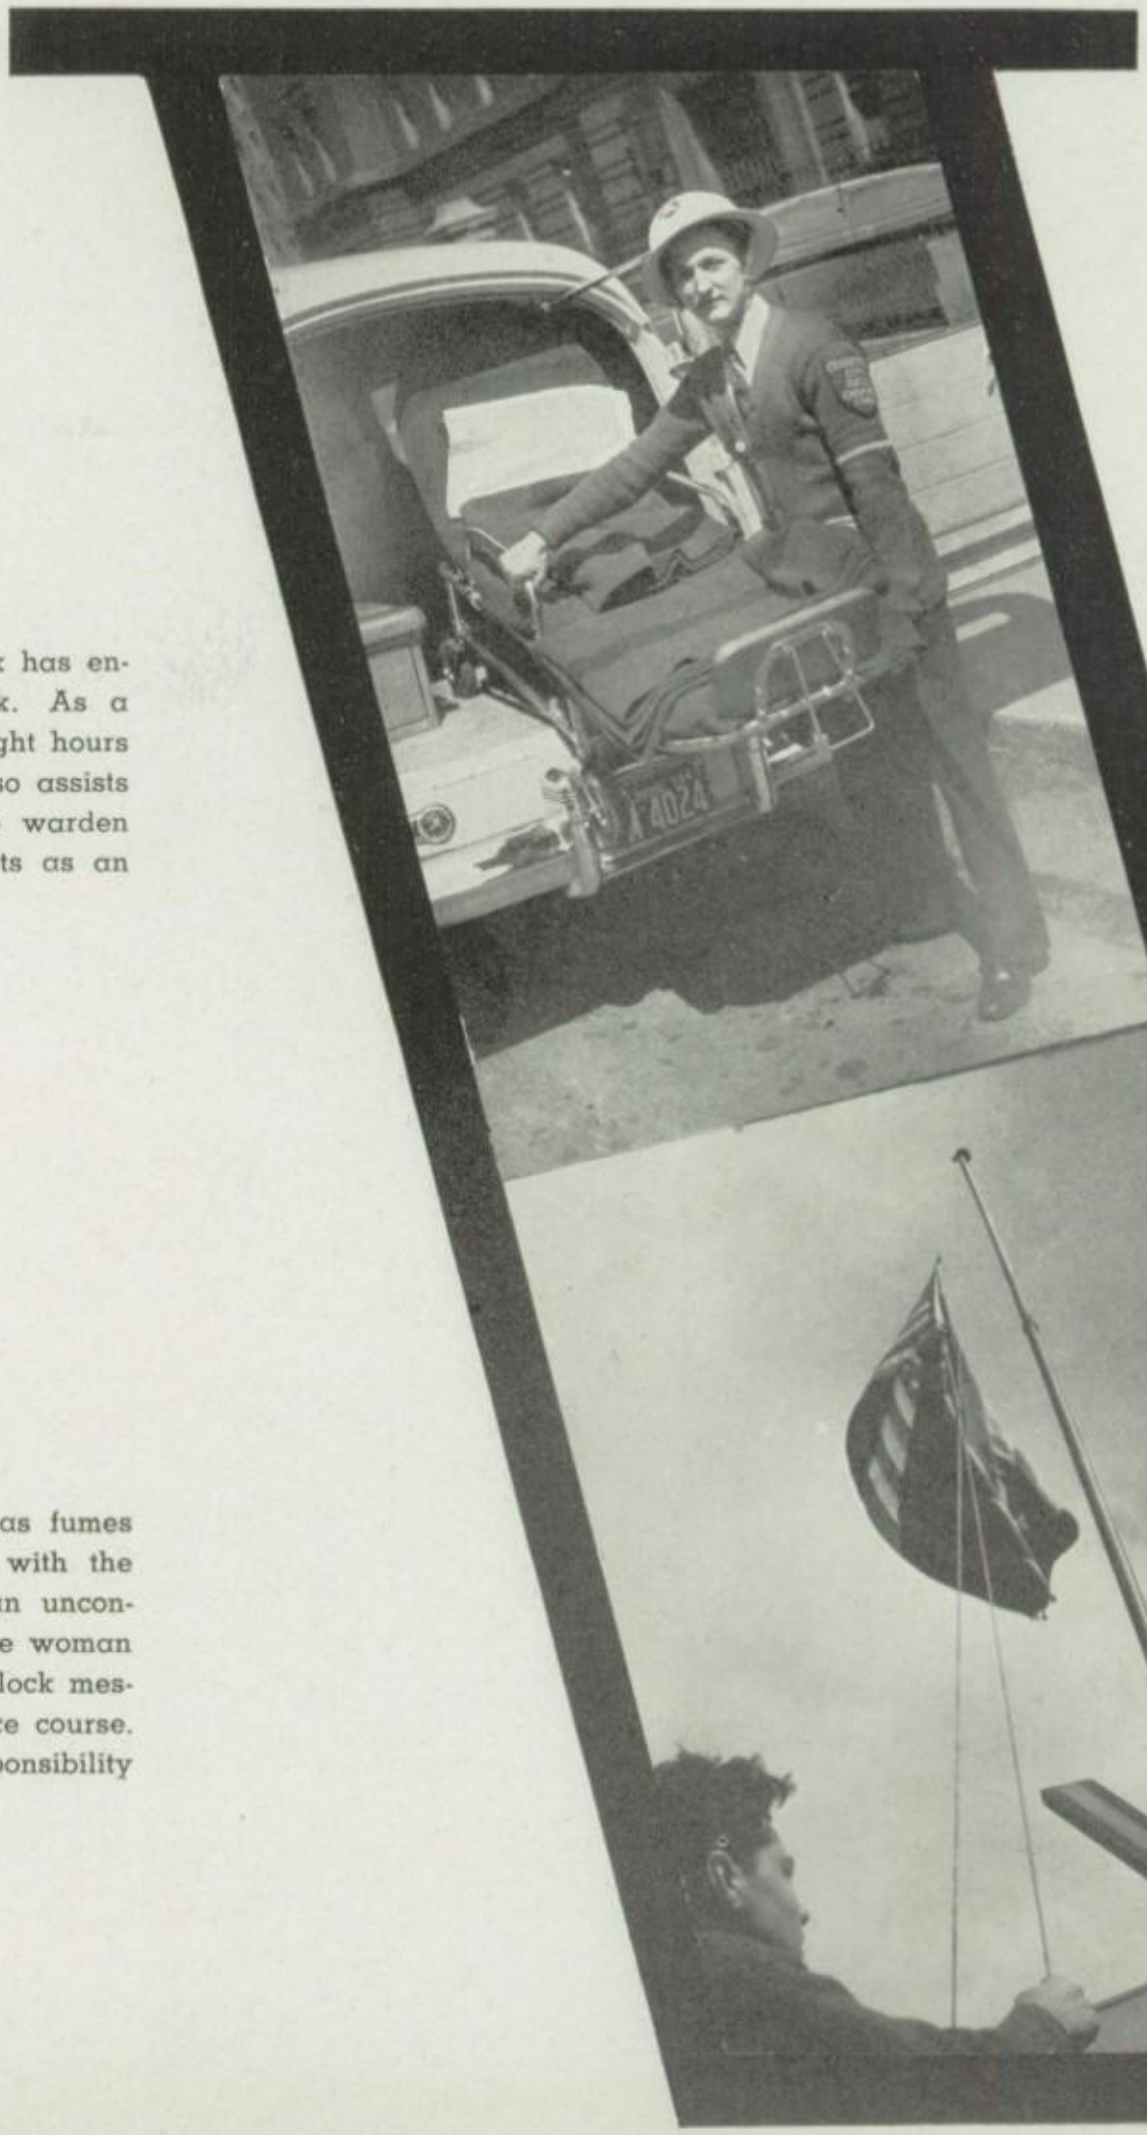
MUST BE A HARD PROBLEM



TO BE APPLIED TO ADOLPH'S PANTS

Working for VICTORY



JIM TALACEK

All around fighter for freedom Jim Talacek has entered almost every field of defense work. As a defense worker, Jim loads army rations eight hours daily and six days per week. Talacek also assists the Civilian Defense program as salvage warden and messenger of his block, and, too, acts as an emergency ambulance driver.

• • •

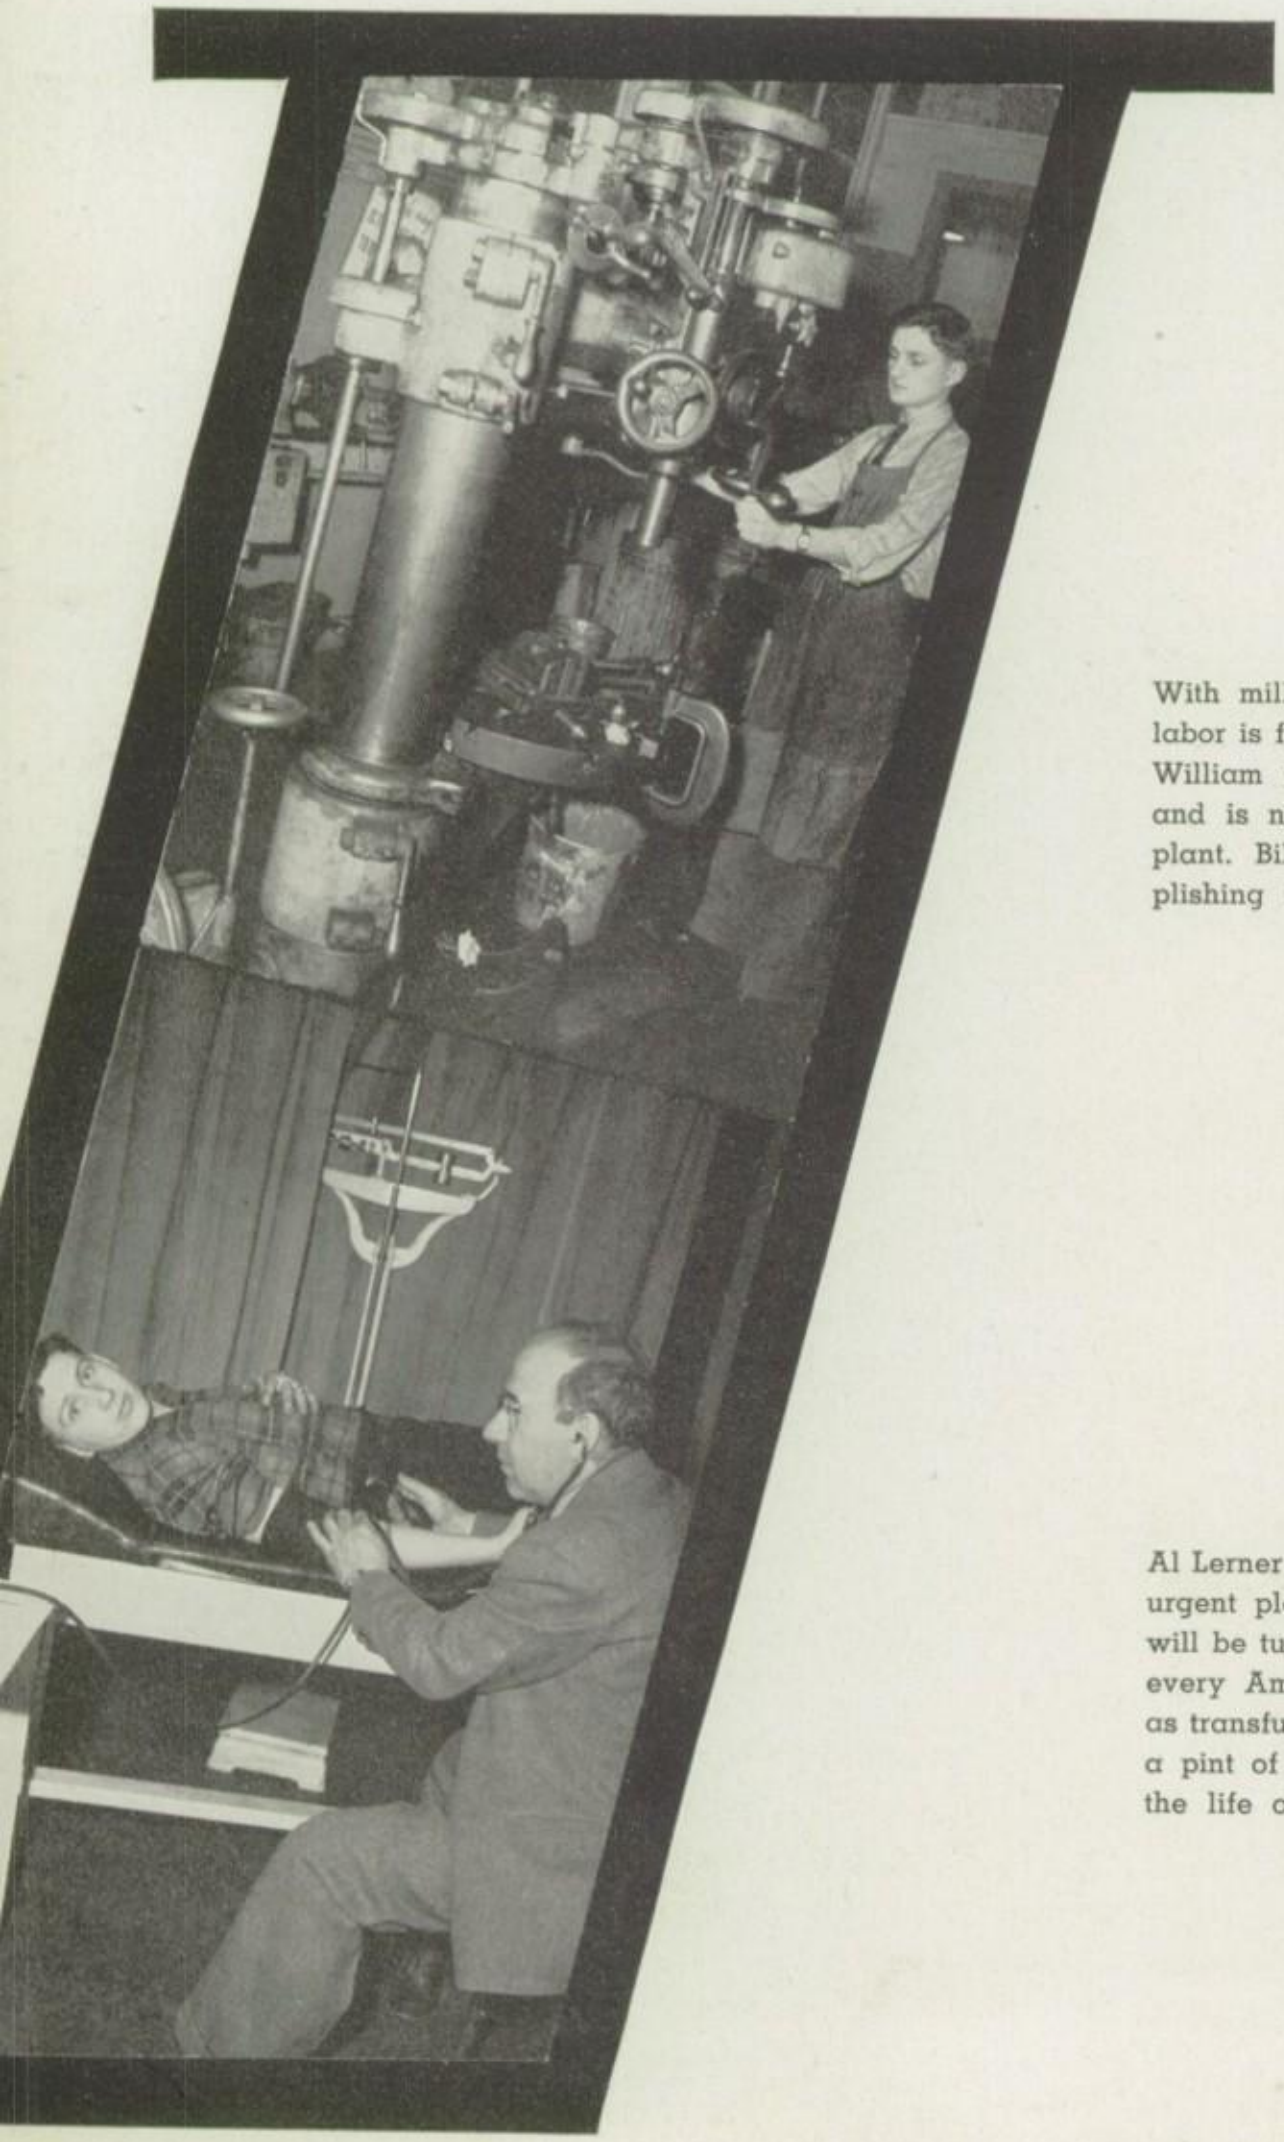
PHIL BONDELLI

Hero of his block, Phil Bondelli noticed gas fumes escaping from a nearby apartment and with the assistance of the block captain revived an unconscious woman. Had Phil not been alert the woman may not have been alive today. Phil is block messenger and has taken an emergency service course. Another block activity of Phil's is the responsibility for lowering and raising the flag.

● In our struggle against oppression and tyranny, campaigns and victories are not limited to the fighting fronts and factories. This is the people's war and the people must fight along with the factory hands and men in the armed service. Boys in the high schools must do their share —boys, who with their seemingly small contributions, bring the hour of victory ever closer.

The Science and Craft has conducted a poll in Crane to determine the extent of war activities of the student body. The results were heartening. Four students were outstanding in their contributions to the war effort.

It is to boys learning to serve that we have dedicated our book. It is to them that we dedicate these pages. . . .



WILLIAM JOHNSON

With millions of men entering the armed services, labor is faced with a serious shortage of manpower. William Johnson has answered his country's call and is now a punch press operator in a defense plant. Bill works eight hours a day besides accomplishing his school work.

• • •

AL LERNER

Al Lerner has responded to the American Red Cross' urgent pleas for blood donors. The donated blood will be turned into plasma which will be shipped to every American fighting force in the world to act as transfusions for our wounded boys. Al has given a pint of his blood, hoping it may some day save the life of a fellow American.

Student Government

● During these trying times, the democratic form of Government has undergone and survived many tests. Here at Crane we are proud of our fair and democratic student government which has thus far ruled supreme.

Our student government is made up of five key officers and a student council. The officers are elected by all Craneites and consist of: the Mayor, the Judge of the Superior Court, the Commissioner of Deportment, the Commissioner of Activities, and the Fire Marshall, who all coordinate their efforts and maintain order in student projects. The lower classmen (who are the 1B's to the 2A's are represented in student government council meetings. The upper classmen (from 3B on) are represented by one representative and the class president.

Of the many activities undertaken at Crane, the Defense Stamp and Bond drive was the most successful. To aid Chicago in the Cruiser drive, we pledged $4,000 worth of bonds and stamps to be sold within six weeks. Not only did we top the $4,000 quota, but we nearly tripled it with a total of $10,395.50 in Stamp and Bond sales. . . .

Court Staff . . .

● Built on an entirely new foundation, the Court Staff has become an integral part of Crane Student Government.

A new system having judges on duty each period has been inaugurated. This system has proved instrumental in reducing the number of arrests.

Thoroughly democratic procedure has been followed in court trials, defendants being extended the right of trial by jury and their choice of an attorney to plead in their behalf.

During these times when we are fighting to preserve our cherished ideals, the Court Staff, in some small measure, has done its share in preserving American concepts and traditions.

Hall Guards . . .

● Having operated with an efficiency as high as that of a police force, the Crane hall guards have been very successful within the last few semesters.

The newest addition to the hall guard system is the method used in handling arrests. Instead of having arrested students present themselves at the superior court after school, they must go to court during the period in which they were arrested.

To become a hall guard, a student need only have a free period, and the will to serve his school. Some of his duties are keeping his post clean, and checking each students passing through the hall for a pass.

Crane Tech Chronicle

• Yes indeed! One of the top high school dailies in the United States is our own Crane Tech Chronicle. Who says so? Why, all the press associations who have rated the Chronicle have acclaimed it "tops." This is truly amazing, but when this same thing goes on year after year, well, then, we know it isn't all luck—no, not by a long shot. It's just plain hard work and good sense on the part of all people concerned.

Students really need no introduction to the Chronicle, for the paper speaks for itself. Besides up-to-date news and sport coverage, unusual features in high school papers, the daily presents editorials, feature stories, humor, and verse in a very readable cosmopolitan paper form.

Its distribution to over 3,000 student subscribers testifies to its influence and place in student life and opinion.

In order to produce the results of a cosmopolitan paper, it must necessarily be organized as such, and that it is! A chart tells each reporter of the day's assignment and it is the reporter's job to produce the details correctly and quickly. All news is presented to the various editors and the Editor-in-Chief handles the layout and captioning of the first and fourth pages. The feature editor is in complete charge of the second, or feature page, which contains editorials, feature material, such as short stories, poems, and jokes and is responsible for i s material and layout. Sports are handled by the sports editor on the third page. After receiving the various write-ups, the sports material is organized and handled in the same manner as all other journalistic material.

Like many newspapers, the Chronicle has a separate business staff which handles all financial matters connected with subscriptions, and is also in charge of advertisement and circulation.

Much of the success of this paper is due to the boys of the linotype and printshops who do the tremendous task of composing, setting up, and printing the Chronicle. This further bolsters the heading under the flag of the Chronicle, "Written and Printed by, for, and about Boys."

The competent advisership of Miss Mills is greatly responsible for the success of the paper. No one can offer better testimony to this than the boys of the staff. Both Miss Mills and members of the staff broaden their field of journalistic interests by participating in Round Table discussions and acting as chairmen and speakers in the various press and journalistic guilds.

1943 Science and Craft

Dedicated to Crane's War Effort

● Marking forty years of service the Science and Craft continues in its rich and full tradition as an integral part of school life. Tradition, be what it may, as the years go by, a new staff must be constantly taking the place of the old. That we always seem to do.

This year of '43 has produced an altogether new setup of the staff and has helped to create a more efficient organization. At the helm of the re-organized staff is the executive department, consisting of the executive editor, editor-in-chief, and associate editor. It is the job of these three persons to organize and coordinate the various departments. Layout and arrangement of the entire book is handled by the executive editor, while the other two editors handle and direct much of the other work.

At the head of each department is an editor who assigns the work to the specialized departmental staff, and is responsible for all work done by the department.

Producing all of the activity, departmental, and social write-ups are the literary staff. They have inaugurated a new system of personal interviews so that they may become better acquainted with the subjects about which they are writing.

Among the most popular department is the sports department which is responsible for one of the most active features of the book. All sports in the school curriculum are included.

Performing an important job are the boys of our photo staff who "shoot" sports, clubs, social activities, and other events of interest connected with the school. All of the "eye-catching" candid shots found throughout the book were taken and processed by our own "shutterbugs." All captioning of these pictures is done by our editors.

Professional artists? No! It is our own art staff which does all of the well-drawn sectional heads, cartoons, and other works of art found on the various pages throughout the book.

Handling the financial end of the annual is our capable business staff who collect the money, keep the books, and promote circulation. This sounds simple but there is a world of detail in connection with the various duties, especially when you consider the fact that the Science and Craft is the largest business affair undertaken at Crane.

The boys of the Crane linotype and print shop have aided considerably in the production of the yearbook.

Finally, we salute our faculty adviser, Mr. Francis Kehoe, who has so willingly assisted us with his firm and able guidance. For his inspiration and advice we tender our sincere gratitude.

Band

● Tooting their way to success, three classes of band members, namely, the beginners, the intermediates, and the advanced groups, have time and time again entertained Craneites at assemblies and various other occasions.

The beginners' class furthers the student musician's knowledge in primary band instruction. When he becomes acquainted with his instrument, and has acquired a specific amount of skill, he is admitted into the intermediate group. Besides practicing in their secluded band room, which is the only room on Crane's 5th floor, the intermediates gain practical experience by serenading Craneites at assemblies and during other school activities.

The advanced band is affiliated with the R.O.T.C. and, besides performing at R.O.T.C. affairs, aids in spurring our teams on to victory at all important games.

Each year the advanced group enters city-wide competition against other school bands. This year, after many patient hours of practice, the band was "in the pink" and succeeded in achieving a "G" rating.

Each student provides his own instrument, while the instruction is supplied by Captain Butler, the band director.

Orchestra

● Attaining success only after many hours of practice each day, the Crane orchestra has presented to Craneites many melodies during assemblies and various other school activities.

It is the purpose of the orchestra to instruct willing students in the beginner's class until they become capable musicians and enter the advanced group. Not only does the orchestra provide practice in the orchestra room, but valuable experience is gained by its members when they perform during assemblies, and assist in the production of the annual spring operetta.

Because of their annual talent, some of the individual players combine to form duets, quartets, and octettes, and display much skill in these arrangements.

Of the many activities in which the orchestra partakes, the annual spring festival is the most important. After months of practice the orchestra and the singers combined produce some noted operettas.

If one has an interest in the orchestra he may apply for admission into this group. The beginner is allowed an opportunity of renting the instrument he wishes to play if he does not possess one of his own.

Big Brothers

● Selected for the task of informing freshmen of the many activities and opportunities at Crane, the Big Brothers Club, who are rated as excellent and superior students in their senior year, visit freshmen sections and explain our student government, its laws and functions. Stressing the extra-curricular activities of the school, the club attempts to arouse the interest of freshmen in our teams, games, publications, clubs and social affairs.

Just recently the Big Brothers Club has considered problems of individual freshmen by answering their questions and suggesting courses of study in order that they might become "live wire" citizens of Cougar Town.

Smith-Hughes Electric

● Our war effort and domestic security are aided through the efforts of the Smith-Hughes Electric Shop students who are training to become "Tomorrow's Kings" of the electrical industry.

The training program advances from the preliminaries of constructing an electric bell circuit to the difficult task of building and assembling a radio receiving set. Special emphasis is being placed on training which is necessary to an electrician in the armed forces.

The fluorescent light and its fixture, today's foremost inventions in that field, are studied in the aspect of learning its details and functions and afterwards the students employ themselves in making the fixtures.

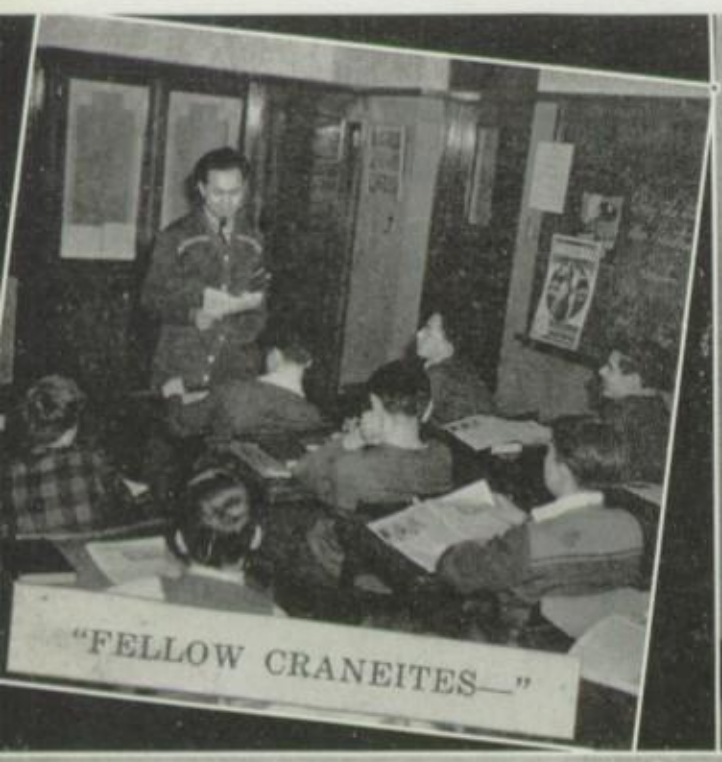
Those interested are permitted to enroll in this class, which meets for three periods a day for a period of two years.

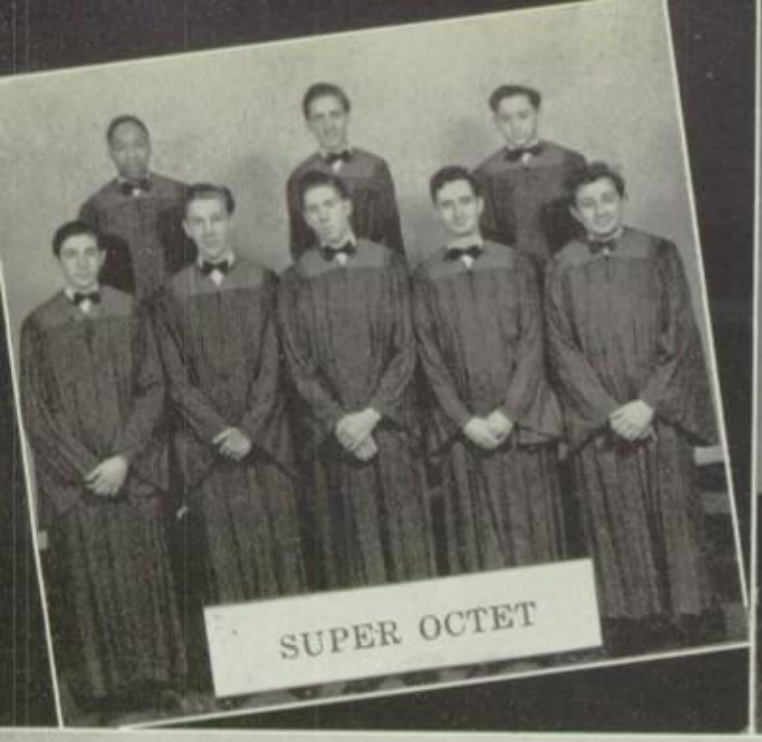
BIG BROTHERS

First Row: Krupp, Edelman, Weber, Bass, Krasowsky, Chiri, Velkovitz.
Second Row: Mr. Werner, Cabrera, Nardini, Haduch, Pospisil, Blechman.
Third Row: Mark, Koci, Sholota, Shlay, Heinekamp.

SMITH-HUGHES ELECTRIC

First Row: Lenzi, Kastrow, Belmonte, Krawetz, Ortman, Mr. Witte, Smid.
Second Row: Koziol, Laschiazza, Santoro, Varygiannes, Pardo, Zaffaro, Sandrik, Monterubio.
Third Row: Burnog, Parker, Du Charme, Fraccino, Koehler, Miller, Olivo.





SINGERS

First Row: Fienberg, Freeman, Feingold, Buffardi, Bazata, Nathan, Halverson, Scheckman, Weiss.
Second Row: Barsh, Batz, Eskoz, Kalzynski, Kurko, Shusteff, Fecke, Best, Ohal, Kowal.
Third Row: Garrison, Carbrerra, Halperin, Root, Zeiler, Schwartz, Sherman, Burks, Cervenka, Methe, Gurko.

CHORUS

First Row: Kowal, Methe, Cabrera, Best, Thomas, Eskoz, Burks, Halperin, Carbrerra.
Second Row: Freeman, Fienberg, Scheckman, Buffardi, Vitkin, Woodfort, Stalloni, Gurko.
Third Row: Opal, Gualtien, Ginga, Batz, Kurko, Fecke, Shusteff, Kulczyski, Barsh, Sherman.
Fourth Row: Cervenka, Root, Zeiler, Weiss, Yakis, Schwarte, Virkin, Monaco, Beardsley, Garrison, Bazata, Poolini, Halverson.

Singers

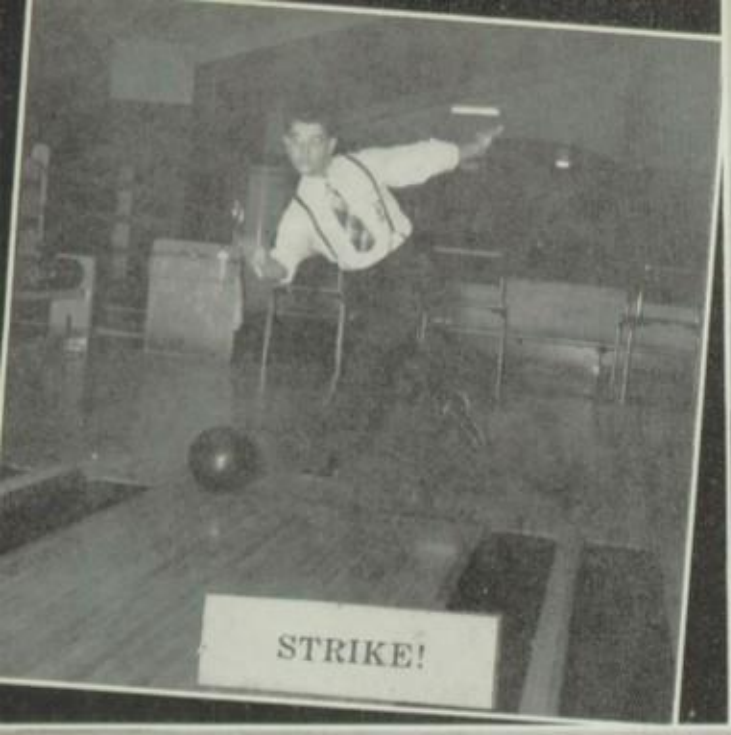
● What could be a more proficient method of building up morale than music or singing? Indeed, at this moment, it is one of the most significant purposes of the Crane Technical singers, who time and time again, "walk off" with superior ratings from Chicago high school judges. It is for this purpose that our singers, at all times, hold the place of prominence at the various assemblies, programs and contests.

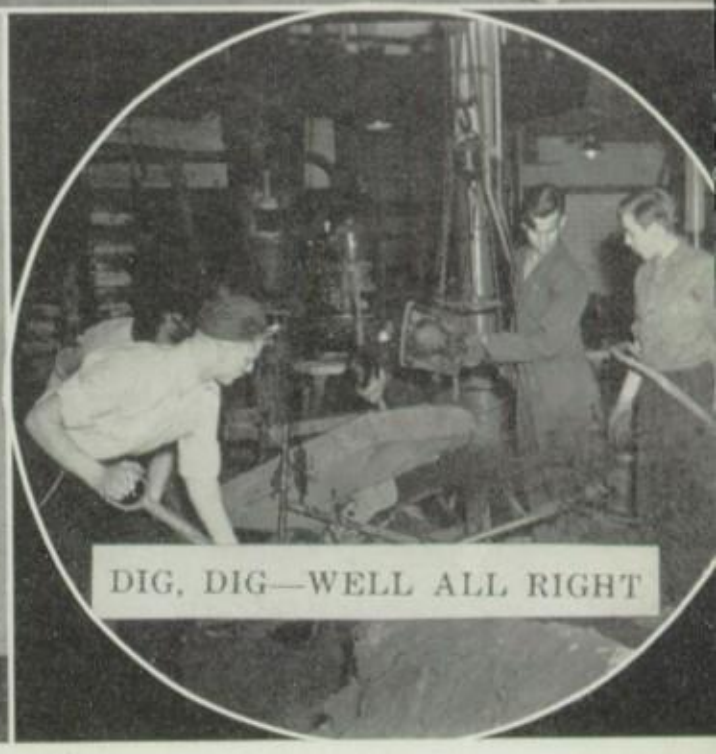
The singers are composed of advanced vocalists, usually chosen from the Crane Chorus and are under the guidance of Mr. Thomas. Practice sessions are held twice a week.

Crane Chorus

● Hearing a sweet melody or pleasant choral arrangement is not an odd experience for those Craneites who happen to saunter by the music room of Cougar Town. The Crane Chorus is responsible for this music. Its purpose is to increase the student's knowledge in the cultural background of music and its masters.

As a reward, the chorus has received a superior rating in all the city contests which it has entered. Lending voices and talent at many school assemblies and staging annual spring concerts is its method of musically educating the student body at Crane.





BOWLING CLUB

First Row: Baime, Szmergalski, Kucharski, Graverman, Lerner, Traczyk, Novak, Pickens.

Second Row: Morath, Kraptovich, Belofsky, Siminas, Hayden, Guthrie, Esposito, Ciccotti, Dini, Affrunti.

Third Row: Kirby, Brenner, Turner, Turzitti, Tortorello, Galasso, Isaacson, Doronzo, Mason, Blanchard.

Fourth Row: Bleckman, Felson, Pearlman, Stallone, Gidman, Goldbaum, Johnson, Starkman, Margolis, Weber, DeStafanis, Both, Kretschmer.

SMITH-HUGHES FOUNDRY

First Row: Kostopoulos, Favicchio, Santeill, Mr. Davis, Castelvecchi, Bannos.

Second Row: Frontera, Kamberos, Brody.

Bowling Club

● Bowling, one of Crane's most popular clubs, has made rapid progress since its initiation.

The Crane bowling club is only a small part of a large organization, made up of bowlers from Chicago and suburban schools. The Crane bowling teams, composed of five members each, bowl for the school championship, and the winning team, continues to bowl against contestants from other schools.

The club was organized to teach its members correct bowling form and foster interest in one of today's foremost hobbies.

The applicant's interest in the club is the only requirement needed when applying for membership.

Smith-Hughes Foundry

● The Crane Smith-Hughes Foundry has readjusted itself, and is now operating on a war time basis.

Under the old system, the time was divided between shop work and lecture periods. Now, there is only one-tenth lecture time and nine-tenths shopwork. Because of this additional work benches were needed. The problem was solved by the Smith-Hughes boys who cast and assembled the additional benches themselves.

Upon graduation most of the foundry boys will enter defense plants and do their part toward the war effort.

The Smith-Hughes Foundry gives the student an advanced education otherwise unobtainable at high school. To enter the class, a student must follow the same procedure required to enter any Smith-Hughes class.

Movie Operators

● "What! No Mickey Mouse," or words to that effect may, at some time or another, be heard resounding from the classrooms when Crane's movie operators begin work. For it is their duty, (or should we say pleasant task), to show movies to their fellow classmates.

Crane's Junior Cameramen begin their task during the first period and end when the familiar sound of the "3:15 whistle" is heard. As compensation for their commendable assistance a minor credit is given, and after two semesters of service, a handsome shield is awarded.

Surprisingly, the requirements for this task are simple—all that is required is a study period, and willingness to learn.

Weight Lifters

● Uncle Sam has called for a physical fitness program—Crane has responded to this plea, this time in the form of its weight lifters. For, it is through this medium that Craneites are answering their country's call and, at the same time, being turned into "Supermen" en masse. Naturally, weight lifting is its main activity, but many health habits are stressed, such as: diet, proper rest, clean living and no smoking.

The requirements for an activity such as this are not stringent, although the waiting list is long. All that is necessary is a health certificate and parent's consent. Compensation? None-save the bulging muscles that soon appear.

MOVIE OPERATORS

First Row: Eaton, Gillies, Hachigian, Cohen, Mr. Puffer, Trob, Timinas, Cohen.

Second Row: Winthrop, Zahl, Madonia, Goldberg, Karo, Serota, Gibson, Peurye, Cohen, Lavin, Costabile.

Third Row: Grasz, Matthew, Braverman, Giorlano, Talor, Cime, Szafasz, Basile.

Fourth Row: Agliato, Kravitz, Mock, Angelos, Siegel, Siegel, Gruber, Kuzma, Patrick, Marbly.

WEIGHT LIFTERS

First Row: Koules, Hodges, Varygiannes, Cohen, Garrison, Hayes, Rubino.

Second Row: Mr. Pettit, Nardini, Spadavecchio, Butera, Marcus, Simon, Erliech, Mr. Malo.

Third Row: Dixon, Bless, Valasek.

Art Staff

● Doubtless, by this time you have seen our introductory and division pages. Well, that's just a sample of what the Art Staff is doing. Although this is a branch of its activities, its main task is that of issuing the so-called "propaganda" for the various clubs, committees and school affairs, in the form of handsomely colored posters.

Membership requirements are mainly: reliability, a little perseverance, and, of course, some degree of talent—all of which, co-sponsors, Mrs. Diaz and Mr. Overholser, hope to develop.

Archery Club

● Crane's Archery Club has once more climbed the ladder to success. Last semester when the club was not functioning smoothly because of lack of interest by the student body, the handful of officers began to work and today the Archery Club is once more amongst the leaders.

During the past semester the team has acquired a new and better archery range in Douglas Park, and the team is headed for top honors in the forthcoming city meet. The younger members, although lacking materials, have built their own bows. Too, they have obtained long-awaited emblems for their efforts.

New members are welcome and no requirements are necessary. When he becomes an active member of the club, the new boy will be given an opportunity to make his own bow and develop his skill for a possible position on the team.

ART STAFF

First Row: Binstock, Tamkin, Poteshman, Berk, Partipilo.
Second Row: Mores, Mansueto, Morgan, Bisicwicz, Lee, Pincus, Block, La Roussa, Weiner.
Third Row: Heinekamp, Serafini, Weber, Gay, Mattarro, Best, Wekony, Abrams.
Fourth Row: Goldstrom, Bahry, Miller, Teresi.

ARCHERY

First Row: Miller, Harington, Tales, Koci, Ruffolo, Kauffman, Lipman.
Second Row: Lavin, Leech, Wilson, Schiavo, Stachowski, Sarno.
Third Row: Goldberg, Lerner, Zimmerman, Soref, DeJuilio, Turley, Rezman, Soffran, Garfinkle.

S & C AGENTS

First Row: DeRosa, Crema, Nitschke, Pinsel, Velkovitz, Krupp, Silverberg, Kostopoulos, Jack, Standard, Maras, Hayden, Johnson.

Second Row: Kreamer, Katz, Mowry, Goldberg, Dangudo, Poulopoulos, Binstock, Fullone, Chiri, Stolspart, Caccavale, Halverson.

Third Row: Kamberos, Kissane, DiGregorio, Laezlo, Johnson, Schmidt, Edelman, Kastrow, Weber, Shlay, Blechman, Molin, Starkman.

Fourth Row: Lachman, Nickos, Gillman, D'Angelo, Mesch, Arnold, Lavett, Woods, Kretschmer, Feferman, Wood, Silber, Ramirez, Bruno, Nakis.

SMITH-HUGHES LINOTYPE

First Row: DeLucca, Angelucci, Limbo, Kirby, Dehl, Jeske, Feldman.

Second Row: McGuire, Rosario, Fischground, Finamore, Garino, Berk, Lucia, Mr. Peters.

Third Row: Cohen, Schneider, Whitten, Kirchhoff, Conway, Lipschultz, Shapiro, Cohen, Jayko.

S & C Agents

● Stirring up sales and collecting money is their job. Who? Why, the S & C agents, of course. Selected by their section teachers for their honesty, aggressiveness and salesmanship, these boys really do a remarkable job. Upon appointment, they are taken "under the wing" of the S & C business manager who shows these prospective salesmen the tricks of the trade.

RESULT: We soon have "super salesmen" trying their best to stimulate interest and increase the sales of the Science and Craft, which, by the way, is the aim of all S & C agents. For all their time, effort and patience a handsome emblem is awarded to each.

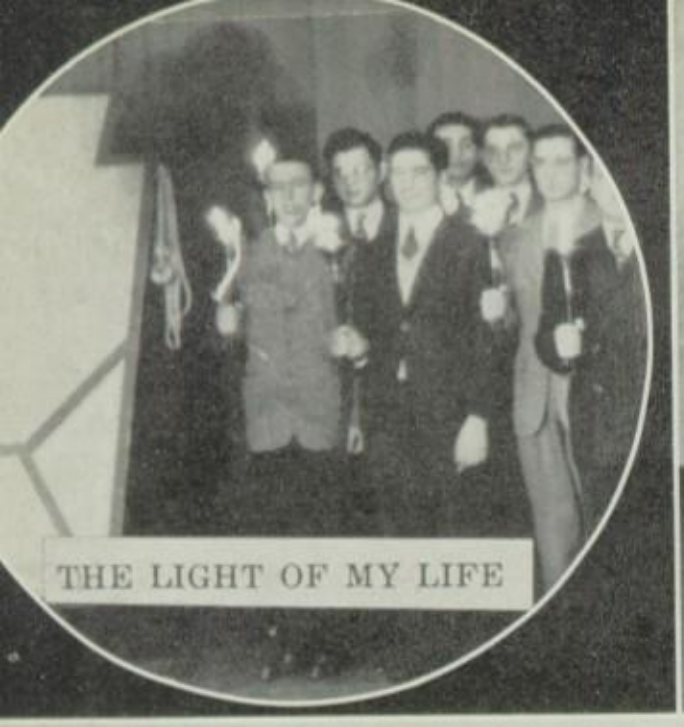
Smith-Hughes Linotype

● The Smith-Hughes Linotype class is preparing Craneites for the fourth largest industry in the world.

This shop, like all other Smith-Hughes shops, is attended four periods a day for two years. At first the student practices on an artificial keyboard to acquire skill and speed. As he improves, his assignments become more difficult.

Besides learning how to use the keyboard, Craneites are instructed in the mechanistic functions so that in case of any technical failure, he will be prepared to repair the machine without delay.

The Smith-Hughes Linotype boys set up the Chronicle, and handle many of the other school printing jobs.



THE LIGHT OF MY LIFE

YE CLUB GUILD DAY

NATIONAL HONOR SOCIETY

First Row: Schlay, Babuich, Ryan, Dimoff, Sabatino, Waszak, Scire, Brandt.
Second Row: Prober, Miller, Krupp, Sholata, Cabrera, Weber, Davis, Trozzolo, Pospisil, Miss Devine.
Third Row: Hlechman, Feferman, Schlesinger, Bozzi, Gelman, DellAnno, Lescher, Rifkin, Kowalski, Schmidt, Baskovitz.

Fifth Row: Broustis, Levy, Krasowsky, Sherman, Handler, Grodecki, Gianacopolous, Romalewski, Bazata, Cotowsky, Ivaska, Starotska, Krol, Velkovitz.

CLUB GUILD

First Row: Shlay, Blechman, Shuwal, Sholota, Nardini, Koci, Krupp, Serafini.
Second Row: Mrs. Eddy, Sarno, Cabrera, Kramer, Velkovitz, Scott, Halpern, Trozzolo, Semmler.
Third Row: Edelman, Goodman, Heinekamp, Miller, Bahry, Weber, Gay.
Fourth Row: Morgan, Makowski, Aznavoorian, Trozzolo, La Roussa, Luzadder.

National Honor Society

● Membership in the National Honor Society is based on scholarship, leadership, and character. Prospective candidates must also be recommended by the principal and four or more of their teachers.

The object of the Crane Chapter is to create an enthusiasm for scholarship, to stimulate a desire to render service, to promote leadership, and to encourage the development of character in pupils of Crane.

Most interesting single event of the society is the awe-inspiring initiation ceremony. Besides this, many other social functions are held for the benefit of the members, and delegates are sent to the City Council meetings which are held at the various schools.

Its place in school life can readily be seen by the fact that its roster contains the most outstanding students in the school.

Club Guild

● Co-ordinating and guiding Crane clubs is the function of the Club Guild. Each club sends its president and one representative to the guilds' semi-monthly meetings which are held under the sponsorship of Miss Eddy.

This unique organization charters new clubs, advises on their constitutions, helps publicize school clubs, and promotes co-operation between the many clubs here at Crane.

Two big events on the club calendar, held under the auspices of the Club Guild, are inter-club day and the freshman assembly, whose purpose is to help stimulate student interest in the various clubs. Inter-club day is by far the greatest ostentation of the year. It features skits, acts, displays, and demonstrations, assembled and presented through the efforts of all our clubs.

Smith Hughes Auto

● Establishing quality and speed as their guide, the Smith-Hughes Auto Shop boys have forged ahead, and with renewed effort are working at an accelerated pace.

Their study and lecturing is backed up by sound practical experience, which is gained by checking and repairing faulty autos which are interned for repair by car owners.

Interested enrollees enter the class in their 3B semester, and spend three hours a day for a period of two years. The student gathers knowledge and acquires skill. If after the first semester the student fails to prove that he is capable, he is dropped from the class.

Owls Honor Society

● Yes! A truly distinctive organization is that of the Owls Honor Society, the oldest of Crane's societies. Membership in the Owls requires straight "S" on the final marking period, and maintenance of an "E" average afterwards. Before becoming a full-fledged Owl, a candidate must teach twenty times in the after school classes.

After school classes are designed to give aid to students who are having difficulty with their school work. Help is given in almost any subject, which shows the versatility of the student teacher.

Under the guidance of the sponsor, Mrs. Littleton, the organization functions smoothly and renders much service to the school. Full-fledged Owls receive two gold pins for their efforts.

SMITH-HUGHES AUTO

Fourth Row: Levy, Smulevitz, Dimoff, Angert, Handler, Langer, Waszak, Krol, Romalewski, Krupp.

"HEAVE, HO!"

"IT AIN'T HAY"

Math Club

● Today, in this age of mechanization, men are needed—men with mathematical knowledge. In answer to this demand, Crane has in addition to its math classes, a Slide Rule and Math Club, which is devoted mainly to theory and manipulation of the Slide Rule. This, of course, is its main objective, although they are also striving to create an active interest in mathematics generally.

Organized a decade ago, the club has gone along steadily without any laxation. Their meetings are held once a week at which time all the "Quiz Kids" get together to solve any problems which may confront them.

Chronicle Agent

● Yes, sir, Joe Craneite, you may be well proud of your Chronicle Agent. He's doing a swell job. Due to his untiring efforts, sales have increased, circulation leaped, and interests aroused.

Because of their importance, all agents are chosen by their section teachers, on the basis of character, personality and aggressiveness. After being taught the ropes by the Chronicle's Business Manager, they are ready to do their job, namely: taking subscriptions, collecting money, and delivering the Chronicles to the sections. To each agent with a 100 per cent section, a free subscription and a handsome emblem is given.

MATH CLUB

First Row: Shlay, Velkovitz, Edelman, Weber, Trozzolo, Colose, Shefler, Cunningham.

Fifth Row: Kweucar, Oman, Tumino, Crain, Tristano, Baker, Conway, Regula, Presperin, Karkazis, Pindak, Scalzo, Melnick, Lessner.

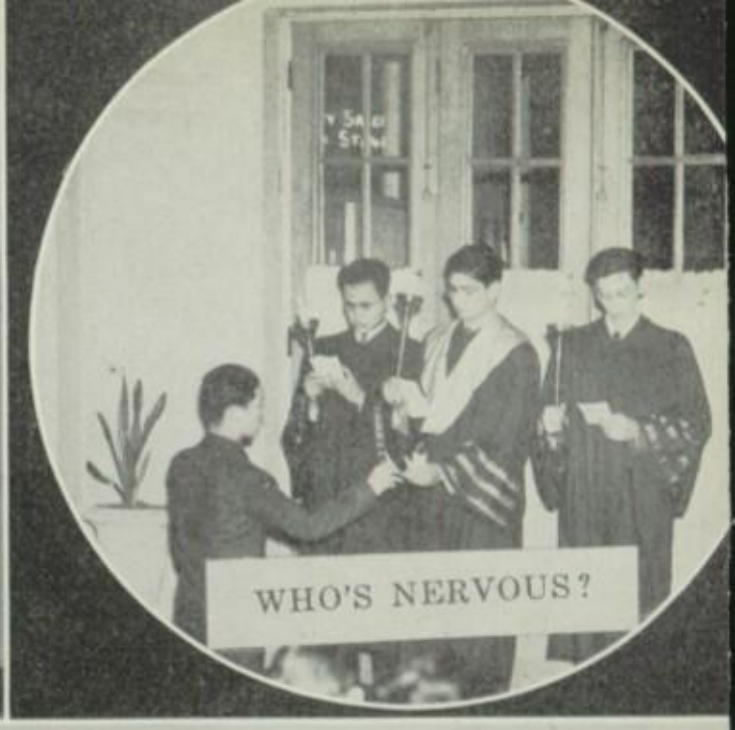
Ben Franklin Club

● Designed mainly for those printshop enthusiasts who wish to delve into the higher branches of the printing field, the Ben Franklin Club welcomes any Craneite who had or is taking print shop.

Along with printing tickets, publicity posters and other material for school affairs it also engages in printing bulletins for the National Defense Neighborhood Headquarters and the Defense Program Evening School.

The club gives its members an opportunity to extend their printing education beyond the print shop classes. Members of the club are given access to all printshop equipment, and can always obtain valuable assistance from their two sponsors, Mr. Kreamer and Mr. Brannberg. Each year the club enters a display of their year's work in the annual Inter-Club Day exhibition.

For its aspect of frivolity, the club is noted for its annual skating party, which highlights an entire year's work and has been a huge success ever since its inauguration. Each year it has been the policy of the club to present the Crane print shop with a gift which will serve future printers at Crane.



QUILL AND SCROLL

First Row: Davis, Miss Mills, Mr. Kehoe, Edelman, Krupp, Gelman, Velkovitz.
Second Row: Friedman, Prober, Bruna, Pospisil, Johnson, Blechman, Shlay, Katov, Sherman.
Third Row: Meisler, Broustis, Greenstein, Handler, Bass, Margolis, Lescher, Stuckal, Rifkin, Dardick, Starkman.

Second Row: Mallardi, Evensow, Kulik, Constantino, La Roussa, Izzo, Luzaddero.
Third Row: Morgan, Barron, Mejta, Saffredo, Goldstrom, Makowska, Aruan.

Quill and Scroll

● Quill and Scroll, the "international honorary society for high school journalists," is the "hallowed ground" of the literary men here at Crane. To become a member, a student must be in his junior year—scholastically in the upper third of the class—he must have done superior work in some phase of journalistic or creative endeavor, and must be recommended by the advisor of the publication on which he serves.

The Crane Chapter of the Quill and Scroll is part of a much greater organization of over twenty-five hundred chapters located throughout the United States and its possessions, and a number of foreign countries.

It is the purpose of the society to encourage and reward individual achievements in journalism and allied fields, to take an active part in raising the already high standards in this field, and to direct the course of high school journalism.

Smith-Hughes Print

● Practice makes perfect is proven by Crane's Smith-Hughes Print Shop students, who are working towards a position in some commercial printing plant. Their preliminary training such as learning the "California job case" and setting type. makes it possible for new Smith-Hughes students to dispense with preliminary print shop training.

Because they attend class three hours a day for two years, the boys have ample time to get acquainted with the machinery and the work to be accomplished.

2-A students who request entrance into this class need only inform their section teacher who will make the necessary arrangements.

Zoa Phyta Club

● Crane Zoa Phyta Club under the sponsorship of Charles F. Dunn, Biology head, have added another banner year to their already outstanding achievements.

One of the oldest clubs at Crane, it was organized for the sole purpose of giving those boys interested in scientific study a chance to further expand in their chosen field, be it physical or biological science.

The past semester found Crane's future scientists engaged in individual experiments, ranging from the testing of dry cells to the dissection of animals. There are no basic requirements for membership, except that the incoming boys be interested in some phase of scientific study. All boys from freshmen to seniors are welcome.

3-A Class

● "Orchids" to the class of 44½ who are anticipating their Junior Prom. The 3-A class, under the sponsorship of Mr. Bickner, climaxed a successful season. Full details of the Prom have not as yet been revealed, but, within all probabilities, the gala event will be held at the Medinah Athletic Club or LaFollette Park. Lew Diamond and his Orchestra will render their melodious tunes for the occasion. Although this is the first affair attempted by the class, it is one of significant importance, for upon its success hinges the decision of the possibility of a Senior Prom.

ZOA PHYTA CLUB

"HERE'S YOUR DINNER, OSCAR"

HAVING FUN

Smith-Hughes Machine

● Smith-Hughes Machine Shop students realize that industry is in need of machinists and they are diligently working towards apprenticeship.

There are two Smith-Hughes machine shop classes—one doing bench work, while the other is doing lathe work. In the middle of the semester, the classes alternate so that each one will have an equal amount of training at both lathe and bench work.

By making different types of small tools the boys become acquainted with the equipment and machines. After the preliminaries are learned, it is only a matter of practice before the students become expert at their work. Like all other Smith-Hughes shops, this course lasts three hours a day for two years.

Accordion Club

● Composed of Craneites who own and can play an Accordion, the Accordion Club serves as a source of entertainment for the student body and a means of relaxation for the club members.

The past semester found the group playing at various Crane functions, both in and out of school, and each time contributing to the gayety of the affairs.

Each year the club enters the Inter-Club Day competition. In 1941, the Accordion Club secured third place in this contest. Although last year the club failed to place, this year, with an increased membership, the club is out for top honors.

SMITH-HUGHES MACHINE

Fourth Row: Spiwak, Elrich, Kuln, Taler, Levin, Steen, Tomcik, Larks, Harris, Chemers, Lembo, Minerva.

Fifth Row: Budish, Brenner, Robbins, Zielinski, Bernstein, Kiffrim, Greco, Crain, Gabinet, Gandy, Bonich, Kramer, Garrison.

Chemistry Club

● As days go by and the war progresses, the world is realizing the necessity of skilled laborers. More than ever, it realizes the part our schools are playing. Crane has foreseen this situation and is doing its utmost to give the boys a chance to "Learn to Serve." At the very moment Crane's Chem Club is preparing students to fill these vacancies, it is allowing those Chem students who join it an opportunity to delve into the mysteries of the chemical world.

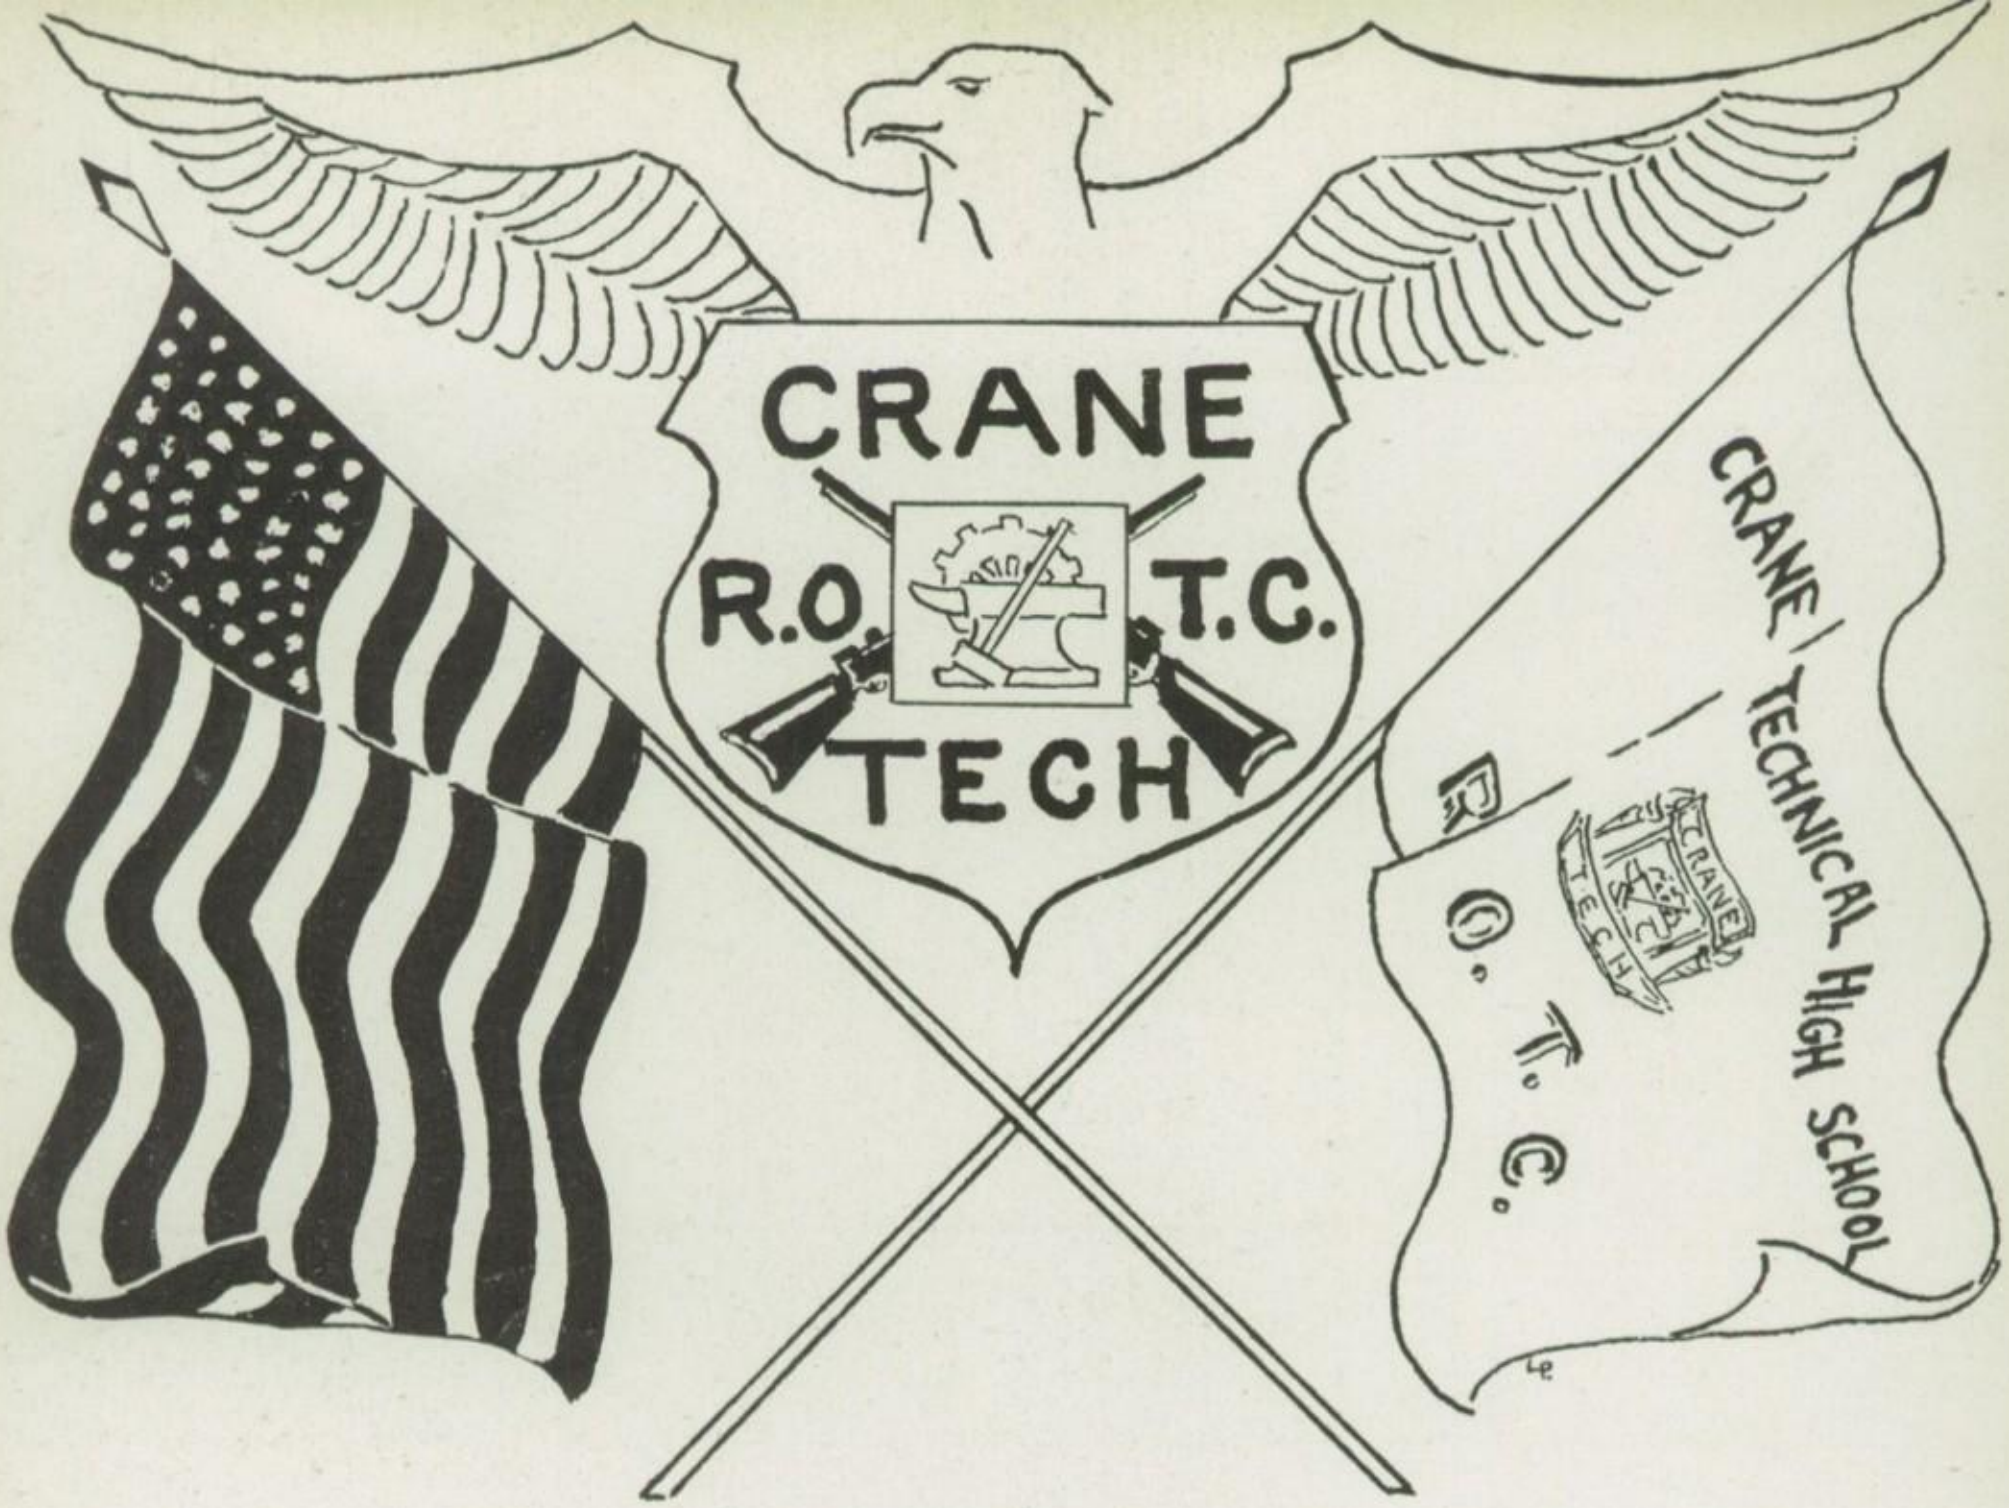
Meetings are held once a week at which time they conduct experiments, watch movies, or perhaps, hear an interesting lecture.

Lunch Guards

● Working in co-ordination with their superior officers and Mr. Harrington, their sponsor, the Crane Lunch Guards have within the last year achieved their goal—cleanliness and order in the lunch room. New systems were devised to add to the comfort of the Craneite.

A few years ago, table reservations were unknown at Crane, but now the system has been perfected and Craneites can avoid the confusion that comes with speeding for tables. Some of the duties of the Lunch Guard are: keeping the tables clean, helping at food counters, and maintaining order.

Lunch Guards are on duty three periods a day; a new force coming on during each lunch period. They are selected for their reliability, good attendance and faithful service.



R.O.T.C.

● Organized to give its members a better understanding of leadership, citizenship and discipline, the Reserve Officers Training Corps has succeeded in educating 11,000 R.O.T.C. cadets in the Chicago area.

Established by Abraham Lincoln and ratified by means of the Morill Act of July 2, 1862, the R.O.T.C. has, because of its mission, expanded tremendously and R.O.T.C. training is now given in practically all high schools and colleges in the United States.

Although the U. S. War Department prescribes the course of study, provides the uniforms and equipment, maintains supervision, and inspects and grades the R.O.T.C. units each year, the Board of Education provides the text books and non-military material.

Crane possesses one of the finest uints in the city of Chicago. For three years in a row our unit has managed to stay on top. In 1941, the Crane R.O.T.C. was rated second best in the sixth corps area, which includes the states of Illinois, Michigan and Wisconsin. In 1942, we rated third in all city competition, and this year, 1943, although a little below average, we were still near the top, rating ninth.

Volunteering for service, the R.O.T.C. cadet receives a minor credit for the course of study which includes military courtesy, personal hygiene, first aid, national defense, mapping, drill, rifle marksmanship, combat principles, infantry weapons, scouting and patrolling, military history, and citizenship.

The R.O.T.C. is not necessarily a military organization, as it aids cadets in becoming better citizens, and thus makes for a better country. As we are now in a state of war, the training an R.O.T.C. cadet receives in high school or college will help him to advance further and more quickly upon his entrance into the armed forces.

COLOR GUARDS

First Rank: Tech. Sgt. Dandrea, Master Sgt. Spillone, Tech. Sgt. Troka, Staff Sgt. Moran.

REGIMENTAL STAFF

First Flank: Lt. Col. Snyder.

Second Flank: Sgt. Dahdl, Maj. Salato, Maj. Berger, Maj. Berendsen, Sgt. Walker.

Third Flank: Capt. Waxstein, Capt. Sholl, Sgt. Delaney, Capt. Mottlowitz, Lt. Neboski.

Fourth Flank: Sgt. Dandrea, Sgt. Spillone, Sgt. Troka, Sgt. Moran.

R.O.T.C.

● The crowd cheered, people shoved, crowded and stretched in order that they might see their sons, friends, or relatives proudly strutting to the beating of drums.

Yes, Craneites, our R.O. unit is good and in order that non-cadets might better understand the composition of the different R.O. divisions, we dedicate this page to a concise summary of the officers' honorary society, the select platoon, the officer's candidate school, the rifle team, the officers' staff, and the drum and bugle corps.

OFFICERS' STAFF

Nicknamed the "Brass Hats", the officers' staff is composed of the four ranking officers of the regiment whose duty it is to enforce War Department regulations and maintain specifications in the R.O.T.C.

DRUM AND BUGLE CORPS

Providing the marching music for R.O. cadets is the Crane Drum and Bugle Corps which consists of R.O.T.C. cadets who are interested and assigned to this department.

Besides playing at several flag dedications, the Drum and Bungle Corps performed at an induction center for men who were entering our armed forces.

OFFICERS HONOR SOCIETY

Composed of all the commissioned officers in the R.O.T.C. the Officer's Honor Society seeks to further the officer's knowledge of military affairs.

RIFLE TEAM

By applying the process of elimination, the ten Rifle Team members are chosen from a large group of R.O.T.C. cadets who apply for membership. Knowledge of the four rifle positions, namely, prone, standing, sitting, and kneeling, and a complete understanding of rifle range safety is required of each member.

SELECT PLATOON

Comprised of thirty of the R.O.T.C.'s outstanding cadets the select platoon encourages precision coordination. In city-wide competition Crane's select platoon placed third.

Military Ball

"Keep 'em Rollin'."

● And that's just what the R.O.T.C. is doing. They've added another banner year to their already brilliant record. On January 16th, the annual Military Ball smashed all attendance records for any Crane affair. Seven hundred couples danced to the streamlined rhythm of Lew Diamond's orchestra at the Grand Ballroom of the Medinah Club.

As is the custom, six Crane teachers were assigned the task(?) of selecting a queen and two ladies-in-waiting from photographs submitted by R.O.T.C. cadets—Outcome? . . . . Esther Rafferty of Providence High School reigned as queen of the ball. Her majesty was attended by Rita Staska and Lorraine Capen.

At 11:02 P.M., Miss Rafferty was crowned by Lt. Col. Snyder "Miss Crane of 1943." . . . . Long live the queen . . . . Curfew set at 12:30 A.M. . . . . What an evening!

Varsity Football . . . GRIDIRON HEROES

CRANE TROUNCES MARSHALL

In their initial practice game of the season, the fleet Crane Cougars edged out a 7-0 victory over an unexpectedly tough Marshall eleven. Though outweighed, the line-busting Cougars sparked by Joe Hayer with his line-cracking plunges, and Girolami's booting made all the efforts of the boys of the Maroon and Gold futile.

TIE OAK PARK

In one of the muddiest gridiron battles of the season, the fighting Cougars stymied all efforts of a favored Oak Park squad at Oak Park 0-0. Because of last year's defeat 39-0 by this mighty suburban aggregation, somewhat of a moral victory was achieved. Honors of the day went to the great defensive work of Joe Sturgulewski.

FOREMAN TOPS COUGARS

Officially opening the "42" grid season, a high-spirited Foreman eleven dealt the Crane Cougars their first sectional defeat in three seasons—20-12. Joe Hayer's first quarter fumble started the Cougar upset. Ray Hansen accounted for all of Foreman's tallies.

HARRISON FALLS UNDER

Crane's burly gridders with their "never say die" spirit edged out a strong Harrison eleven 14-12. Throughout the game, the Cougars outran and outpassed the Hornets but, until the second half, were unable to cross the goal line to tally. Finally Villiger's deadly passing attack was unleased which climaxed the victory punch.

TULEY ROUTED

Thirty-two to six was the total amassed as the boys from Cougarland routed a small, but game, Tuley football squad. The Crane eleven worked with machine-like precision bottling up all Tuley's hopes, while Ray Izzo and John Stacho followed through with well-executed line smashes. Honors were pinned on the Cougar line men who helped tear gaping holes in the Tuley line.

COUGARS EDGE OUT STEINMETZ

Every second was a life time as the Crane Cougars brilliantly edged out a spirited Steinmetz eleven—20-19. Up to and through the third quarter, the Steinmetz boys held the lead. "Chuck" Girolami opened the last quarter with a blistering passing attack overtaking the Steinmetz squad's lead and ceasing only with the final gun.

CRANE TRIPS KELVYN PARK

Four in a row was the objective attained as the triple threat Crane Cougars overcame a valiant Kelvyn Park squad—28-6. The Cougars took advantage of every Kelvyn Park misplay, particularly fumbles, to score in every quarter. Co-Captains Migliorisi and Villiger split scoring honors.

COUGARS MEET "DUNKIRK"

Any Cougar West Section title plans were completely obliviated as Austin's high-scoring Tigers pulverized them—27-0. Early in the game, Austin opened up with a passing attack that completely baffled Crane's secondary and resulted in two of their four touchdowns. Austin's Dick Arado, flashy star back, was the Tiger's key man of that day.

CITY CHAMPIONS: Tilden Tech, the mighty aggregation which vanquished the Crane gridders last season then went on to win the city championship.

POST SEASON REVIEW: The boys on the whole gave all they could muster. The line men, the majority of which will return next season, hard veterans of this year's campaign, were tops individually and generally. The back field was the picture of close coordination, and cooperation. They were good this year—maybe not enough—but next year, they'll be better.

Frosh Soph Football . . .

STARS OF TOMORROW

Crane's invincible Frosh-Soph gridders closed a very successful season after winning seven consecutive games, thereby becoming the only Frosh-Soph squad undefeated in the city competition. The Cougars dropped their first game of the season to the Oak Parkers, but catapulted back to the city to defeat Tilden, Amundsen, Lane, Senn, St. Ignatius, Tilden again, and Austin. The red and blue totaled 109 points to the opposition's meager 40 points.

OAK PARK DRUBS COUGARS

Opening their eight game schedule at Oak Park, the Cougar Cubs stepped off with the wrong foot losing their initial match to the Parkers of Oak Park—25-0. A flawless pass defense and shrewd ball handling aided by the "Cradle to Grave" football teaching of the suburbanites opened the Cougar's eyes to their weak spots.

CUBS BEAT TILDEN

Cougars Cubs defeated a hard fighting Tilden frosh-soph eleven—12-6. Scoring both touchdowns for the red and blue was Lombardo, speedy left end for the Frosh-Soph eleven. Lombardo scored the first touchdown on an eleven yard end around run and went over the second when he made a miracle catch of the Captain Ruzzi's 17 yard pass and scooted the remaining 20 yards for the score.

CUBS TRIM AMUNDSEN

Crane's hard fighting Frosh-Soph gridders won their second consecutive game when they defeated a surprisingly strong Amundsen's eleven and gained a total of 229 yards to 75 rolled up by Amundsen.

FELL LANE INDIANS

Cougar town's line-smashing and stratosphere-minded junior gridders defeated a scrappy Lane squad—14-6. The Cubs finally warmed up in the second quarter after trailing the north side tech men. Lombardo and Ruzzi made up the able scoring combination—each tallying once, with Ruzzi responsible for both conversions.

LICK SENN

A strong, able Senn eleven found themselves unable to move our burly gridders around as they succumbed to them—14-0. The green and white were an aerial-minded squad taking to the air twelve times with the result of only three completions to record. The Cougars scored twice on line plunges by Al Licciardi.

OVERRUN ST. IGNATIUS

"Five in a row" and nobody can stop that streak it seemed as the "mighty mites" paced by Captain Nick Ruzzi, a fleet jack rabbit, pierced, punctured or otherwise overran, a game, but weak St. Ignatius squad—21-7. The Cougar line proved it was able to keep plunging and to drive gaping holes in the enemy's line.

EDGE OUT TILDEN

This proves it—"We did it before and we did it again." For the second time this season Crane's Cub gridders drew Tilden blood as they edged them out—16-14. Both teams seemed evenly matched and close scoring bears this out. Lombardo added points to his personal scoring record and helped pace the Cougars to their sixth straight.

TROUNCE AUSTIN

Crane's unbeatable frosh-soph eleven wound up a highly successful season by trouncing a weak Austin squad, 19-0. Game statistics were recorded by adding machine as the Cubs seemed to surpass all precedents in overrunning the Tiger eleven. The three stars, Lombardo, Ruzzi and Licciardi, consolidated their efforts to split scoring honors, one touchdown apiece for the day.

Ice Skating . . . FLASHES ON ICE

• Crane's senior and junior ice skaters placed fourth and third respectively in the city meet held at the North Park Lagoon, January 16, 1943. Taft High School captured the senior title and Senn High School acquired the junior title.

The senior team gathered ten points on placements by Hoenig, who took first place in the mile; Sayers with third place in the 880 yard dash; Steyspal a fourth place in the mile; and the relay team, fourth place in the mile relay. The relay team was composed of Koril, Cooper, Hoenig and Sayers. An unlucky spill by Sayers halfway through the lap probably was the main factor in the losing of the city championship. Sayers was not the only victim of the slippery ice, for many Cougar Speedsters lost their footing in the important preliminaries thus eliminating them from the finals.

The juniors made only five points. Clark captured fourth place in the 220 yard dash and the relay team took third place in the mile relay. The junior relay team was composed of Puleo, Przechera, Monachini, and Clark. Senn High School dominated the junior meet.

Coach Steinmetz had expected the senior team to win the city championship this year. The team was well-balanced but the smile of fortune was not shining their way the day of the meet. However, next year, Hoenig, mile city champ and captain, together with Sayers and Clark who comes up from the juniors, will compose the nucleus of the team. Many experienced boys are on hand to fill in places vacated because of the graduation of the older team members and we believe that they will come through next year with a city championship cup.

Major letters were awarded to Hoenig, Sayers, Steyspal, Koril, Cooper, Clark, Puleo, Przechara and Monachini. Hoenig obtained the coveted white captain's monogram.

Soccer . . . SHINBREAKERS

Under the able leadership of Coach Julian Steinmetz, the dusty Crane Cougars prepared for the cherished city and county soccer championship. Although the boys of Red and Blue played their hardest for victory, all plans for annexing their former city and county championships were lost by costly mistakes.

BOOTERS TIE MANLEY

In their opening practice tilt of the season, Crane's shinbreakers were held to a 2-2 tie by a strong Manley eleven. The Booters came from behind in the final moments of play to overcome a two point deficit as Stryker, a promising rookie, scored on a lead-in-kick to save the game for the Cougars. Manley's score occurred when Shaykin popped in a corner kick.

LANE BEATS COUGARS

Coach Julian Steinmetz's Booters met defeat at the hands of a strong Lane squad, defending city champs, in their initial game of the year by the score of 4-2. Fighting desperately, the Cougars tried to solve the Laneite's tricky defense system. The Cougars tied the score at two all once, but seemed to lack the necessary scoring punch.

SCHURZ KNOCKED OVER

Smart defensive tactics and an able corner passing attack all converged to enable the soccer team of Cougartown to emerge victorious over a very crafty Schurz squad 2-0. With the exception of one mistake by the Schurz eleven, both teams played evenly.

VON STEUBEN EDGED OUT

Crane's mighty shinbreakers won their second straight game by defeating a strong Von Steuben eleven—2-0. Rich scored Crane's lone tally on a pass from Stryker. The Cougar squad seemed to be holding all their scoring punch in reserve and just playing for off sides throughout the second half of the game, knowing they had a winner in the bag.

AMUNDSEN VIKINGS DRUBBED

Crane's oval masters rolled over a weak but game Amundsen squad—9-0. The forward line rammed home four tallies in the first ten minutes of play. Rich high-lighted their offensive manoeuvers as he set up the four tallies with his passing. The final stanza was rounded off with the aid of all the Cougar subs.

COUGARS FELLED

The Oak Park soccer squad lived up to their splendid reputation as one of the leading soccer squads in the state, by overwhelming the Cougar shinbusters—5-0. Oak Park has beaten other squads by such scores as to make this losing score a compliment to the Crane booters.

CRANE AND LANE TIE

Seeking revenge over the Indians of Lane High School for a defeat earlier in the season, Crane's polished veterans of the soccer division tied the Indians at two apiece. The Cougars managed to deal the Lane team a scare as they held the lead most of the game. Crane outplayed the Laneites throughout the game. Only once did the Craneites falter and lose the lead on a penalty shot.

SCHURZ WINS

The same weakness that enabled the Crane booters to defeat them earlier in the season reversed the teams involved and Schurz was awarded a victory over the Craneites—2-0. Both terms were as evenly matched as before and the latter or former results of the two meetings could judge the two teams one way or the other.

COUGARS LOSE FOURTH

Seemingly losing some of their fine defensive and offensive polish, the Cougar shinbreakers were defeated by the Von Steubenites—2-0. A penalty shot enabled Schreiner to score for the Von boys. The match was roughly but fairly fought.

AMUNDSEN ROUTED

Winding up a rather successful season the Crane booters submerged a weak Amundsen squad—14-2. The Cougars not only achieved their highest score but broke a team record which has stood since 1932. Leading the toe-stubbers were Captain Brin, Schubert, and Stryker, who each tallied twice.

CROSS COUNTRY

• After a fair season under the stalwart coaching of Anton Novak, the Harriers entered the city meet with an excellent chance for the title. However, their high hopes were hurled downward when Lady Luck played against them. Sam Gibellina, Crane's ace speedster, was edged out of first place position by inches by Howie Stone of Schurz. Stone's time for the two mile run was 10:42:6. Captain Harry Sholota, who was expected to place in the higher bracket, finished far behind his scheduled spot due to a bad start. Other Crane runners to finish were Sol Ferrera, "Red" Miller, Angelo Tiritilli, Zeke Cabrera, Marcy Waszak, George Katsion, Addison Kennon and Steve Tanyko. Their efforts gave Crane fourth place.

Ill luck was not the fate of the boys in the novice division. Although a team championship is not awarded in this division, Crane truly monopolized the race. Taking the highest honors for Crane was James Ford. Ford won the race with his time clocked at 11:24. This was Crane's fourth individual victory in seven years. Other Crane speedsters were: Frank Pospisil, who placed fourth; Manuel Guerero who took sixth; followed by Louis Rosales in seventh and Allen Dimoff at number ten. It is interesting to note that throughout the whole race there was always a Crane speedster in the front.

SENIOR TRACK

• Opening the season with a well-balanced squad led by Coaches Moore and Novak, it looked as though this was the year that the speedsters would be strong contenders for the city title. Yet, no one figured on gremlins and how they could bore holes into the team by taking some of our senior "speedsters" to college and disabling others. Those who left early for college on scholarships were Sam Gibellina, Joe Hayer and Edward Orlandi; while, on the sick list was Armour Krupnik. Despite these weaknesses, the senior runners nevertheless engaged their opponents and equalized three wins with three losses. . . . Thus entering the city meet the senior speedsters were only able to take a fourth place token with fifteen points. . . . Sholota won the senior mile run with a time of 4:43:9. Krupnik received the honor of having earned the most points. He tallied 5½ points by placing third in the sixty yard dash, fifth in the triple broad-jump and he ran on the 880 yard relay team along with Co-Captain Marcy Waszak, Willie Lucas and Ray Izzo. The relay team won second place.

JUNIOR TRACK

• The juniors opened the season by following traditional lines and tieing rivals of long-standing, the Schurz Tigers, by a score of 32-32. This was followed with second place in a triangular meet with Austin and Kelvyn Park. The final tally sheet read—Austin, 45¾, Crane, 31¾, and Kelvyn, 7½—then came new hope as the Wabblers beat the Harrison Hornets 39½ to 27½ . . . . travelling to Oak Park for a quadrilateral meet, the juniors were trampled into last place. . . . The juniors quickly forgot this beating and continued their conquest by beating a tough Senn squad 34-32. . . . Meeting a stronger Tilden squad, our thinclads lost by a score of 37-32. Thus the juniors ended the season with two wins, two ties, and two losses. The juniors entered the city meet and returned with an eighth place by earning 7-1/7 points. Al Licciardi turned in the best show of the day by winning the junior shotput with a heave of 52 ft. 8 in. Tom Hanlon also scored in this event by placing fourth. Benny Moreno ended the scoring for Crane as he tied for fifth place in the high jump.

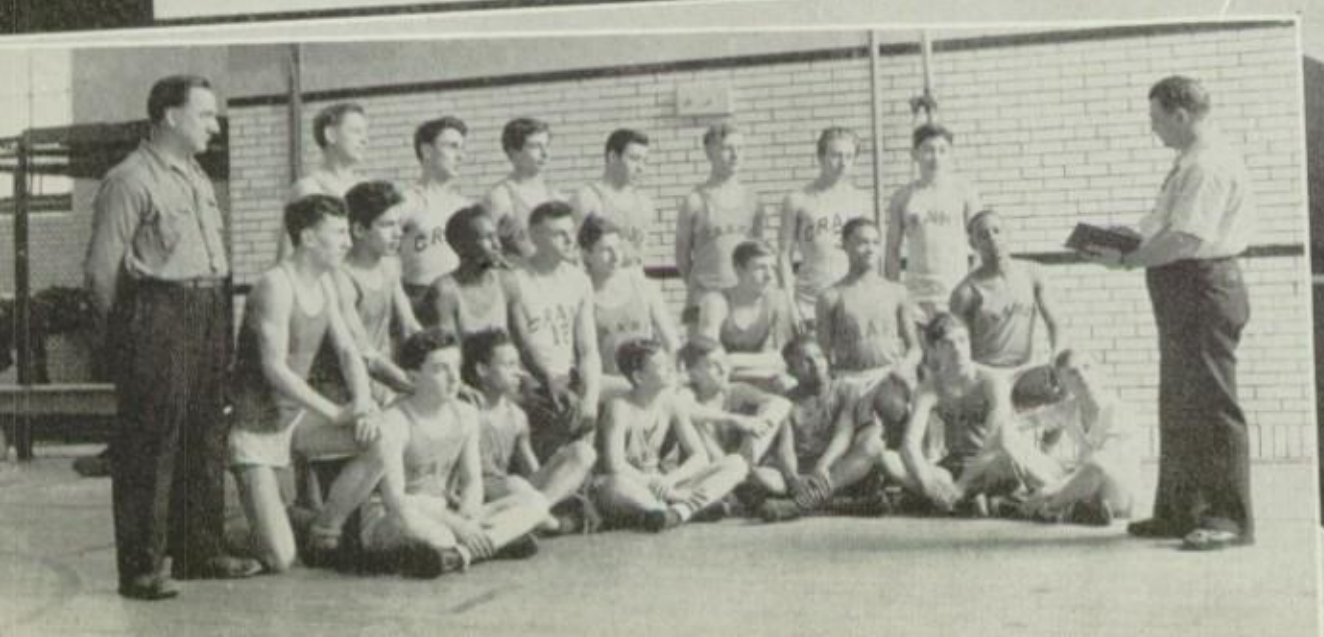
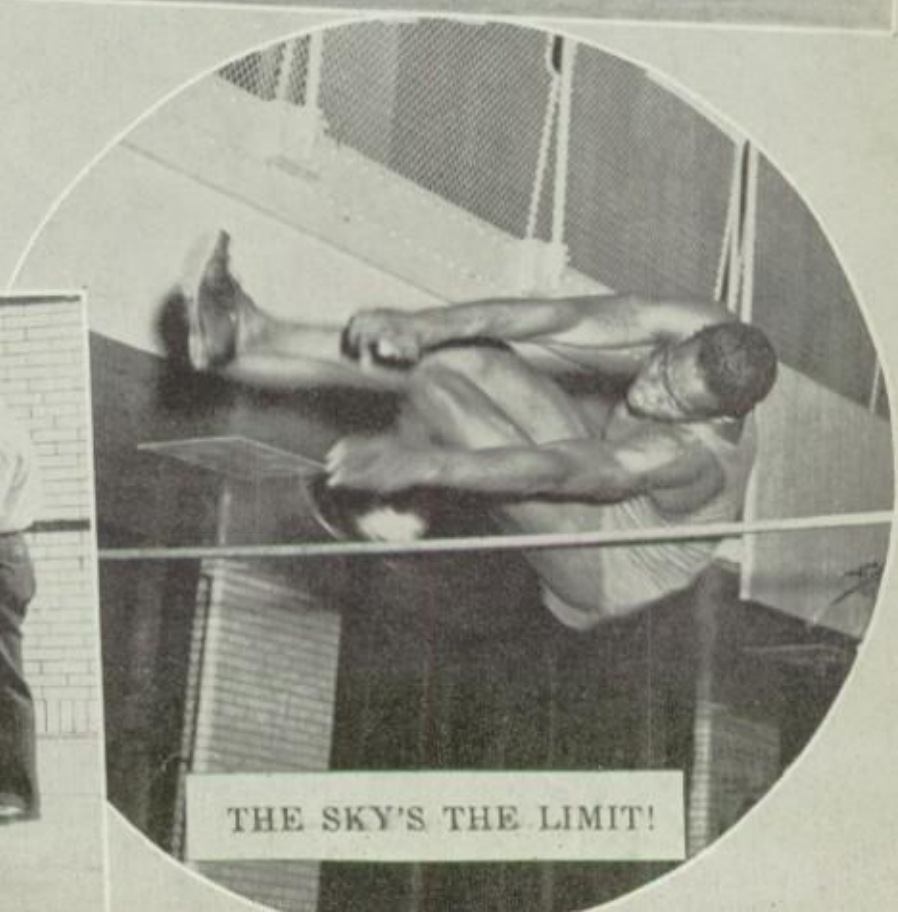
TAKE IT FROM HERE





THE SKY'S THE LIMIT!

Wrestling . . . MAT-GRINDERS

• With his second year of tutelage completed, Coach Victor Mann can assure himself that, although Crane has always been a respected contender to the coveted city title, this year, it has reached a peak comparable to winning that esteemed award. Due credit must be given to the team members, who under the guidance of Mr. Mann cooperated so willingly. In previous years, the Cougar-Town Grapplers had just enough stability to arrive in the preliminaries, and sometimes further, but something always blocked their efforts to advance. This year the Cougar Bonecrushers completed their objective by taking one individual title and three runner-up places in the city meet.

Co-Captains Stern and LeDonne were runner-ups in their divisions of 125 pounds and 155 pounds, respectively, along with Harris who tipped the scales in the 145 pound class. Joe Sturgulewski (Yes! the star football center) was the dreadnaught and master of the 165 pound class throughout the city. The four boys mentioned, with the exception of Sturgulewski, met their first defeat of the year during the elimination tournament.

Previous to the city meet, in inter-school competition, Crane matmen blazed their half-Nelson's and bone-busting scissor grips to their opponent's displeasure many a time. With the exception of the perennial champions, Tilden High School, Crane's knot tying grapplers won every meet.

The Cougars were defeated by Tilden to the tune of 23-17. It was an evenly matched meet. Both squads took five events.

Gymnastics . MUSCULAR COORDINATION

• The Crane Gymnasts, who are called the Cougar-town Contortionists, finally did it.

It was not the city championship, but it was equally important. Complete teams in the open, intermediate, and novice divisions were registered in the city finals. Senn High School was awarded the city title for the fourth consecutive year as it garnered a total of 1,179.5 points. The habitual runner-ups, Lane Tech High School, captured second place with 1,022.75 points. The Cougars took third place with the count amassed at 993.5 points.

Art Sayers led all Cougar contestants in the meet with 77 points. George Lacina and Leonard Bralower placed seventh and eighth, respectively, in the championship division with 63.75 and 59.50 points. Maurice Gruemberg was the only other Cougar entered in that division and his 57.75 points ranked him tenth. Art Sayers scored 77 points in the novice division and placed seventh while Theodore Kolesnik was tied for ninth with John Mueller of Austin with 75.75 points apiece.

Sayers, because of his outstanding scoring record, and George Lacina, merited the co-captain's letters.

Ralph Montoye of Lane Tech, who took fourth place in the championship division last year, won individual honors in that competition by scoring 82.75 points out of a possible 100. Gay Hughes of Senn, who was last year's intermediate title holder placed fifth.

Robert Matteo of Senn walked off with the intermediate division honors by scoring 88.50 points out of a possible 100. James Buffer and Hubert Zapp both of Senn, tied for first place in the novice division, each having 82.50 points.

Craneites! Our boys are getting better. This year's third placers are next year's champs. Yes! Watch the Cougar kings of the parallel and horizontal bars in the near future!

SENIORS

• The heavies were an exceptionally well-balanced cage aggregation until mid-season commencement when Abe Troop and Ed Kowalewski, key men, completed their studies. Their loss disrupted a great combination but, this did not prevent the Cougars from reaching the playoffs.

Crane's cagers played a nine game practice schedule, winning all games with an average of 45 points. Opening their regular schedule, the Cougar quintet continued their streak with a smashing 42-24 triumph over a weak Tuley five.

"KEEP 'EM FALLIN' " . . . . was the slogan as the senior basketeers led by the big three—Weber, Troop, Kowalski—trounced the Marshall Commandos 41-26.

Again paced by the three bucketeers, Weber, Troop, and Kowalewski, the aggressive boys of red and blue vanquished a diminutive Washburn five 35-24.

"Swamped" was the only word befitting the hapless Medill Quintet as the Cougars 1st, 2nd, and 3rd teams netted a 94-18 victory. Weber and Kowalewski contributed 20 and 19 points respectively on part time playing.

The Crane heavies, paced by Captain Art Weber's 13 point performance, outscored a tough Austin five, 40-32.

Trading basket for basket until the final period, the Crane cagers burst forth with a scoring barrage that overwhelmed a well-balanced Foreman five, 41-35. George Grimes held top spot in Cougar scoring for the day with 13 points.

Sparked by Captain Art Weber's brilliant floor game and 12 point scoring achievement as shown on both offense and defense, Crane's once invincible senior cagers finally met their "Waterloo." After a winning streak of 15 consecutive games, they encountered their first defeat by a superior Kelvyn Park squad. The Parkers, paced by Pete Coorlas's 25 points, won by a score of 53-28. Kelvyn Park then went on to capture the city championship.

Demoralized by the Kelvyn rout, Crane's cagers barely edged out an inspired McKinley squad 31-30.

Even though their first major attack culminated in a loss, the second and third teams displayed strength against the Wells cagers.

Despite a 22 point barrage by Art Weber, Crane lost the first playoff match to a mighty Schurz attack, paced by Dick Buchwald with 20 points—45-36. The tipoff found the Cougars too flatfooted, two nervous and with acute buck fever.

JUNIORS

•Despite the loss of last year's key men, the Crane juniors wound up a fairly successful season by finishing fourth in the section and reaching the city playoffs.

Paced by the accurate eye of Morrie Weiss, and a strong last quarter rally, Tuley's high flying junior cagers barely squeezed out a victory over Crane's junior quintet—34-30 Crane's weakness on free throws seemed to be their downfall as they made six out of eighteen shots.

Showing superior form, Crane's Junior cagers edged out Washburne—42-23. Wally Schousen and Ted Ball paced the Cougars with fifteen and twelve points respectively. The Cougars showed remarkable form defensively as the first three periods found the trade school boys with nine points.

Crane's high-spirited junior basketeers, led by sharpshooter Frank Dankus, were swamped by the Marshall commandos (which was also the Marshallite's 70th straight win). The mid-game score was 30-7, and the final tabulation—59-28.

The .500 percentage mark attained and their second victory against as many losses, the Red and Blue outdid themselves by whipping a weak Medill five—47-31.

Crane's hard fighting junior cagers, led by Ball and Schousen won their third as they outclassed a game Austin quintet—54-24. Surprisingly, the Cougars trailed at the first quarter.

Better form and skill were displayed as each game rolled around. Crane's mighty junior bucketeers led by Schousen's and Sosnicki's fourteen point performances rolled up their highest score in fourteen starts as they routed a much weaker Foreman squad.

Cougar-Town's smaller cagers sparked by Scronkowski made it four in a row over a scrappy Kelvyn Park five—45-27.

Sparked by Schousen's second half scoring spree which consisted of seventeen points Crane's junior cagers won their fifth consecutive game and proved themselves exceedingly baffling in their second half scoring outburst, as they handed McKinley a 47-34 defeat.

After running up a streak of five straight victories, Crane's hard scrapping junior cagers went down in defeat before a sharp passing Wells five by a 47-29 count. Schousen was a fifteen point man.

Leaving the playoffs as quickly as they entered, the juniors lost to a high-scoring, speedy Waller aggregation —58-37.

Swimming . . . AQUA MEN

• Laurels to Mr. Merkel for forming a team of star swimmers from what was, last September, a group of eager to learn but inexperienced Craneites. Most of these fellows will return seasoned veterans.

The swimming season begins in the fall and ends late in April. There are two city meets and one state meet.

Opening a hopefully wet season, the Crane seniors drowned a sinking Harrison squad 39-27; the Harrison juniors torpedoed the junior aqua boys 30-27.

Crane's senior and junior Markelmen took a dual meet from the weak Wells teams. The totals were Seniors 88-19, Juniors, 29-28.

The Cougars dropped their first dual meet of the season to the Taft squad. The total amassed against the seniors was 38-28 and the junior's tabulation was 29-25.

In the city swimming meet, Eli Sutker and Leonard Bralower for the seniors and juniors, respectively, placed third in the breast stroke event. Sutker also sparked the medley relay team, which was composed of Zepka and Bahry, and took third place in this event.

The Cougar strokers split a dual meet with Austin. The seniors beat the Tigers 42-23, while the juniors were dropped 41-16. Winning their second dual meet, the Cougar splashers "dood it again" by scuttling Steinmetz by the score of 35-31 and 32-25 in the senior and junior divisions. Tilden's ace strokers sank the Cougars to the tune of 42-24 and 39-18.

The Cougartown swimmers spilled Steinmetz in their third dual win—Seniors 47-19, Juniors 35-22.

Four dual wins for the season's record and two in a row was a proven statement as the Juniors routed their opponents 40-17. The seniors beat the Harrison Hornets 36-31.

Three in a row was the Cougar showing as they won another dual meet. The Juniors won 36-21, while the Seniors won 32-25.

Engaging the Farragut juniors alone, the Crane junior squad won 37-20.

In the city meet preliminaries held in May, Eli Sutker placed fifth. The Medley Relay Team managed to covet another fifth place berth.

PREDICTIONS OF THINGS TO COME

• This is probably the most opportune time to foretell with what and why Crane's baseball team should find the 1943 season a very fruitful one.

WHY? The reason is simple. This year the team which hustles most can be assured of winning. The team spirit and will to win is an original characteristic of the Cougar sports man.

WITH WHAT? Six first string men are returning, besides a flock of rookies who will do more than just lend a hand. In the pitching department, there will be no shortage. Toeing the rubber will be Jerry Abrams, Wally Brin, and last year's sensational rookie hurler, Gene Revell. Tony Raimondo will do the backstop chores, while the infield obligations will go to Gus Skizas at shortstop; Chester Warjas will be covering the number one sack; Dick Matringa over at third, and newcomer, Johnny Imbragulio, playing the key base at second. In the outer garden, the outfielders will be Jim Grimes in left, John Scavo in right, and Blazina, the center field position.

Although they have lost several heavy hitters, the Cougars will have an exceptionally well-balanced row of bats heaped by Gus Skizas and Wally Brin who have already shown their proficiency in "slapping that apple."

CRANE BLASTS TULEY

Initiating the 1943 season, the boys wearing the Red and Blue pounded a weak Tuley nine, 8-0. Gene Revell pitched a two-hit ball game to reassure Coach Edelcup that he was in top form.

GRAND STAND REVIEW

Cougar Baseballers have potentially what it takes to win, and if they play up to capacity nothing will deter them.

FENCING

• "Practice makes perfect"—how true this is in the sport of fencing!

Week after week, the Cougar foilmen engaged all comers in the open matches held at the University of Chicago. Those diligent Cougars were: Captain Ben Shaider, Jack Waldier, George Levy, "Lefty" Nerenstein, Lenny Daszkiewicz, Frank Laveri and Don Lipman.

The results of that venture were that the Crane Representatives scored 126 points out of a possible 200 points. The experience gained during these meets was inestimable as was shown when the Cougars entered the city meet.

Austin High School, habitual winner of the fencing title, again proved supreme. This superiority is what the Cougars are aiming to acquire.

In the city finals, although the Crane boys placed 5th, their true potential value was not realized. Captain Ben Shaider was ill and could not compete. Regardless, George Levy scored 24 points to win in his pool. Other scores were Waldier—21 points, and Daszkiewicz and Lipman 12 points each.

TENNIS

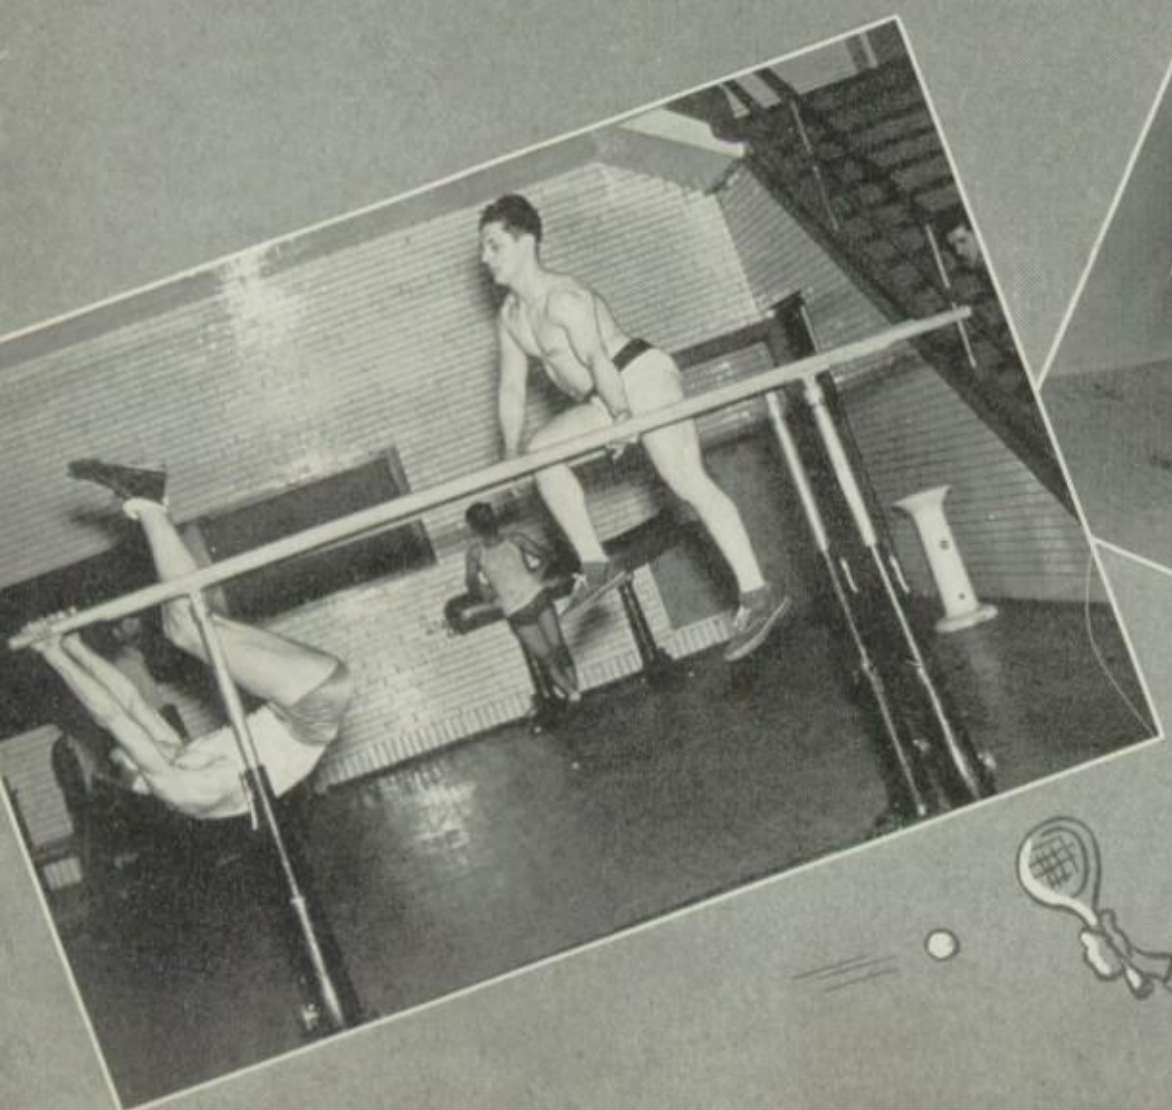
• Our powerful racqueteers, defending city champs, will be out gunning for their second consecutive title this season. They will be exceptionally strong due to the prowess of their two star singles men, Leo Prober and Joey Weiss. Co-captains Prober and Weiss, veterans of last year's tennis wars, will carry the brunt of the Cougar attack. The coveted spots on the doubles team are being fought by newcomers Eli Sutker, Phil Margolis, and Chuckie Axelrod. Coach Steinmetz has arranged two practice matches with a tough Evanston squad on the latter's courts. These matches will prepare the netters for the state meet held in the latter part of May. . . . Tennis talkies. . . . Co-captains, Weiss and Prober, will be definite threats for the state singles title. . . . The doubles team although lacking experience may turn out to be the surprise of the tennis season.

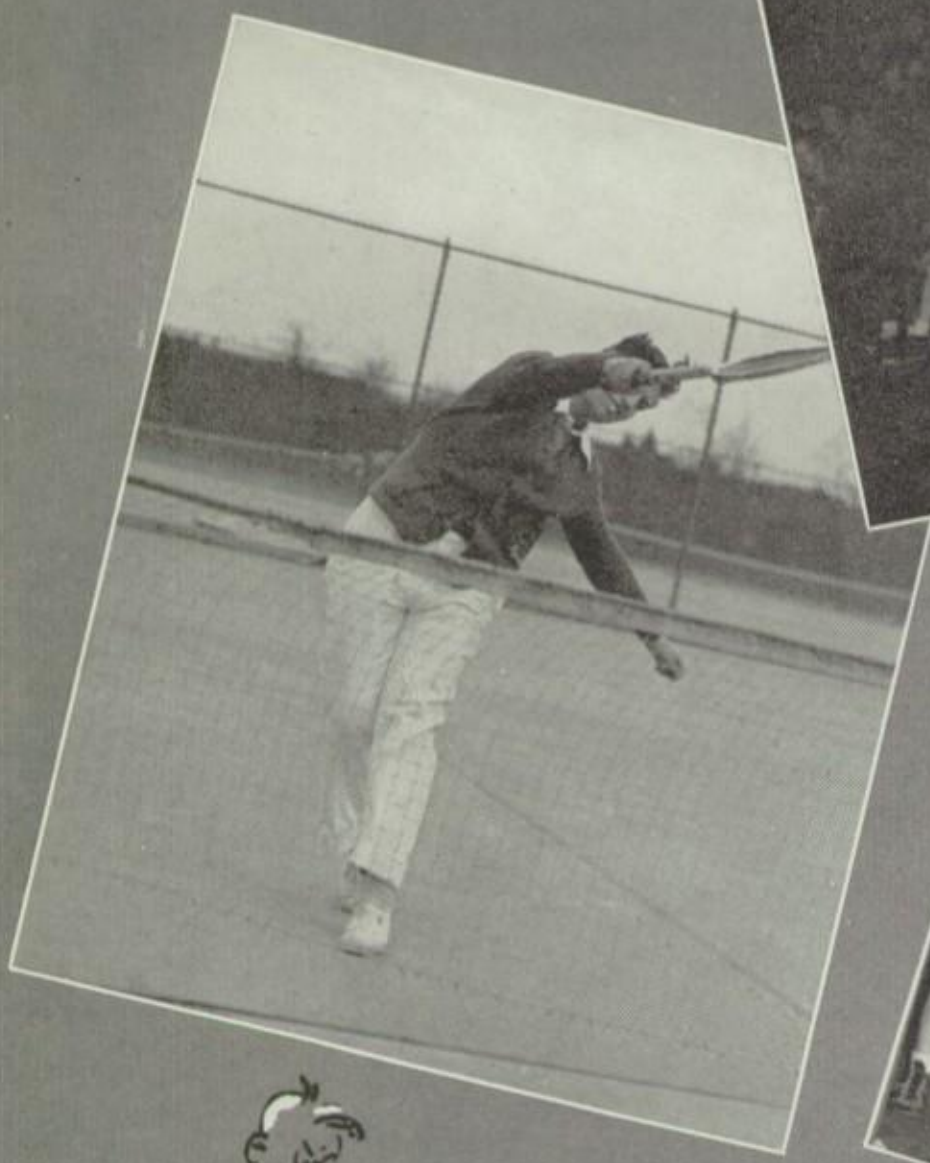
Intra-murals

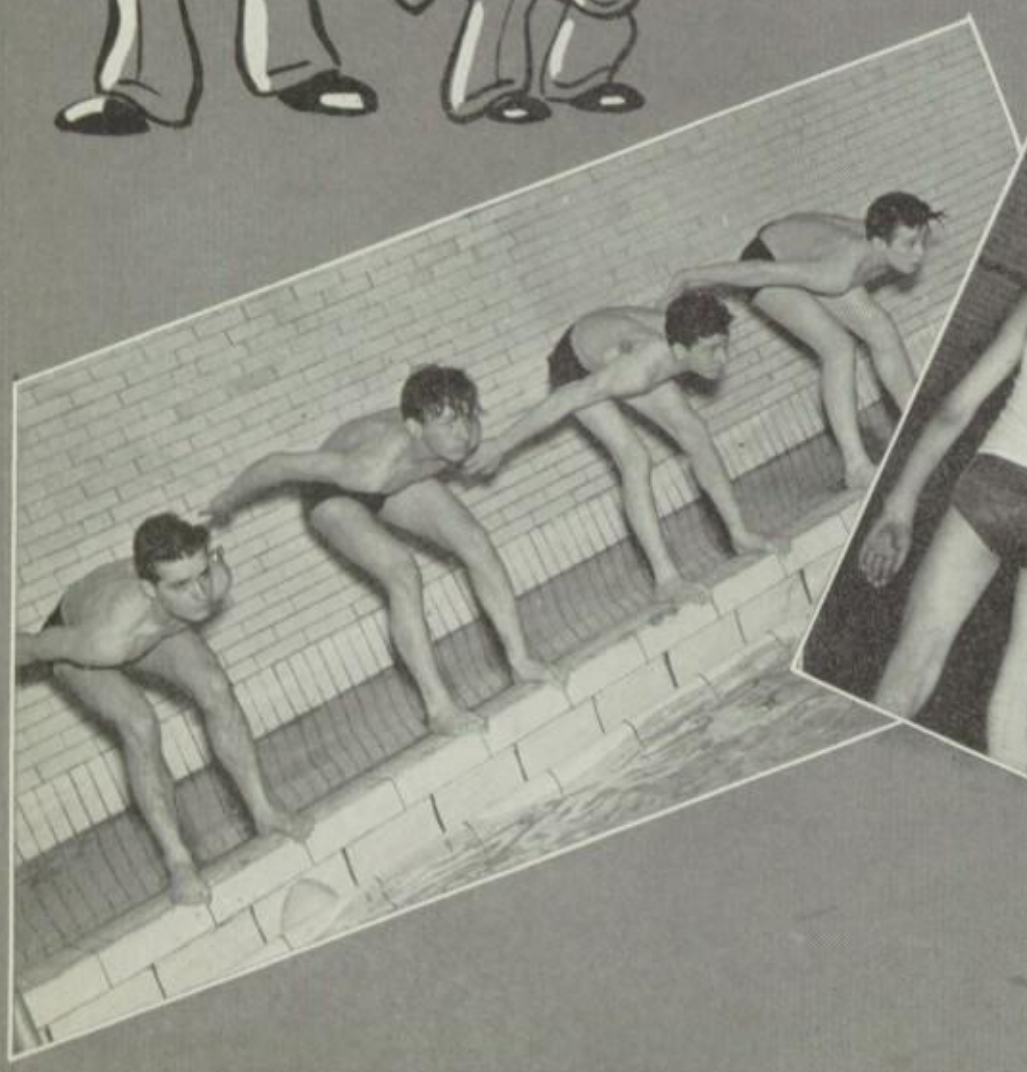
• In the light of present day conditions intramural sports cannot be over-emphasized.

Although intramurals are only an intra-school activity to those competing in them, a fine chance is offered whereby one may break away from troubles and the usual cycle of school work. Physical development, fair play, vigor, technique, strength, ability to act quickly, muscle coordination, fun and joy in participating, and above all, team work are only a few of the traits that intramurals endeavor to develop in participants.

By preparing athletes in whatever skill or sport they choose, intramurals can well be called the "father of all varsity teams." The individual who competes in this all-around activity undoubtedly will be the varsity team star of tomorrow and the ideal citizen to help guide our country in the future.







"_____we here highly resolve that these dead shall not have died in vain. That this nation under God shall have a new birth of freedom, and that government of the people, by the people, and for the people shall not perish from the earth."

Best wishes. M. Slaughter.
